BZA APPLICATION FORM

Plan No: BZA-017045-2018

GENERAL INFORMATION

The undersigned hereby petitions the Board of Zoning Appeal for the following:

Special Permit :

Variance :

PETITIONER : Samuel Thompson & Anne Bunn - C/O Sarah Like Rhatigan, Esq.

PETITIONER'S ADDRESS : 12 Marshall Street Boston, MA 02108

LOCATION OF PROPERTY : 15 Cottage St Cambridge, MA 02139

TYPE OF OCCUPANCY : Single-family Residential ZONING DISTRICT : Residence C Zone

REASON FOR PETITION :

Additions

DESCRIPTION OF PETITIONER'S PROPOSAL :

Rebuild enlarged rear el and construct two 15 ft. dormers on a pre-existing non-conforming structure requiring variance relief; alter window locations and add new windows on side wall of pre-existing non-conforming structure located within the side yard setback, requiring special permit relief.

SECTIONS OF ZONING ORDINANCE CITED :

Article 5.000	Section 5.31 (Table of Dimensional Requirements).
Article 8.000	Section 8.22.2(c) (Alteration to Non-Conforming Structure)
Article 10.000	Section 10.30 (Variance).
Article 10.000	Section 10.40 (Special Permit).

BZA APPLICATION FORM

SUPPORTING STATEMENT FOR A VARIANCE

EACH OF THE FOLLOWING REQUIREMENTS FOR A VARIANCE MUST BE ESTABLISHED AND SET FORTH IN COMPLETE DETAIL BY THE APPLICANT IN ACCORDANCE WITH MGL 40A, SECTION 10:

- A)** A Literal enforcement of the provisions of this Ordinance would involve a substantial hardship, financial or otherwise, to the petitioner or appellant for the following reasons:

Petitioner seeks to demolish and rebuild enlarged the rear el of this single-family, pre-existing, non-conforming structure. The enlarged rear portion of the structure will allow for an enlarged kitchen and half bathroom on the first floor, a second full bathroom on and code compliant master bedroom on the second floor. Two 15-feet wide dormers will be erected on the attic level to allow for code compliant stairs up to an attic storage area. Basement of the structure is plagued by water infiltration and mold issues rendering it unusable for storage. Due to the pre-existing interior configuration of rooms and historic structure (limiting options for modifications to the front portion of the home), there are no better alternatives to achieve the needed additional space for this growing family. Additionally, the pre-existing narrow (40 feet wide), undersized lot and location of the structure on the far left side of the lot, any additions to the structure will require a variance. A literal enforcement of the ordinance would impose substantial hardship, both financial and otherwise, prohibiting the petitioners from making desirable improvements to the interior and modest expansion to the home.

- B)** The hardship is owing to the following circumstances relating to the soil conditions, shape or topography of such land or structures and especially affecting such land or structures but not affecting generally the zoning district in which it is located for the following reasons:

The hardships described herein are owing to the unique circumstances relating to the interior layout of the structure, historic nature of the main portion of the home, the siting of the structure on the narrow lot, and the structure's location very close to the left side of the lot. Additionally, the hardship relating to the need for attic level storage is due to ground water infiltration issues in the basement which may be difficult or impossible for the homeowner's to remedy. These unique circumstances result in Petitioner requiring variance relief.

C) DESIRABLE RELIEF MAY BE GRANTED WITHOUT EITHER:

- 1)** Substantial detriment to the public good for the following reasons:

The relief from Sections 5.31 and 8.22.2(c) may be granted without any detriment to the public good, because it would be a very minimal change - the newly reconstructed rear el will be located within the existing footprint of where the rear porch exists today, and will be mostly unseen by the public. The attic level 15 feet wide dormers will not be detrimental to neighboring uses, as the left side dormer will be above the stairwell to the attic (thus not posing privacy issues for its neighbor), and the right side dormer will be set back from the right side lot line by more than 17 feet, and thus not within side yard setbacks.

There will be no impacts to the District in terms of street congestion or adequate parking on account of the relief requested herein. In allowing this zoning relief, the Board will allow for the Petitioners to proceed with plans to make much needed improvements to allow for their family to comfortably remain in their home with growing children, and such improvements will result in housing stock that will be suitable to future residents with families.

- 2)** Relief may be granted without nullifying or substantially derogating from the intent or purpose of this Ordinance for the following reasons:

Consistent with the stated intent and purpose of the ordinance, as detailed in Section 1.30 of Article 1.000 Preamble of the Zoning ordinance as well as M.G.L Ch. 40A Zoning Section 10 Variances, the proposed project will:

Create quality housing with valued open space for the benefit of the Petitioners, abutters, and successor owners.

Not result in use or activity not otherwise permitted in the ordinance.

Not result in negative impacts listed in the Section 1.3 regarding traffic, population density, blight and pollution.

- * **If You have any questions as to whether you can establish all of the applicable legal requirements, you should consult with your own attorney.**

BZA APPLICATION FORM

SUPPORTING STATEMENT FOR A SPECIAL PERMIT

Please describe in complete detail how you meet each of the following criteria referring to the property and proposed changes or uses which are requested in your application. Attach sheets with additional information for special permits which have additional criteria, e.g.; fast food permits, comprehensive permits, etc., which must be met.

Granting the Special Permit requested for 15 Cottage St Cambridge, MA 02139 (location) would not be a detriment to the public interest because:

A) Requirements of the Ordinance can or will be met for the following reasons:

The proposed renovation includes relocated and new windows on the left side of the house. These window alterations and additions will occur within the pre-existing nonconforming side setback, and are necessary to accommodate interior room changes on the lower levels, and to allow for light and air ventilation on the attic level of the home, and require special permit relief in accordance with Section 8.22.1.d.

B) Traffic generated or patterns of access or egress would not cause congestion hazard, or substantial change in established neighborhood character for the following reasons:

Proposed renovation project will result in no additional traffic, change in traffic, or change in the established neighborhood character, but will vastly improve the conditions within the home.

C) The continued operation of or the development of adjacent uses as permitted in the Zoning Ordinance would not be adversely affected by the nature of the proposed use for the following reasons:

No change in use will occur as a result of the proposed remodeling of the house, and adjacent uses will not be adversely affected by the requested special permit relief.

D) Nuisance or hazard would not be created to the detriment of the health, safety and/or welfare of the occupant of the proposed use or the citizens of the City for the following reasons:

No nuisance or hazard will be created as a result of the proposed special permit relief, as the window improvements should have very limited impact on abutters due to the locations of these windows offset from the neighbor's windows and largely screened from its neighbor by foliage.

E) For other reasons, the proposed use would not impair the integrity of the district or adjoining district or otherwise derogate from the intent or purpose of this ordinance for the following reasons:

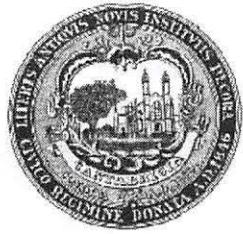

The requested special permit relief can be granted without impairing the integrity of the District or adjoining district, because the altered window locations and new windows will be in keeping with standard residential construction and consistent with neighborhood uses.
