

Cambridge Police Department BridgeStat

December 2013

Produced by the Crime Analysis Unit

****Preliminary 2013 YTD numbers are subject to change as data are finalized in the coming weeks.***

Part I Total Crime

With just one day left in 2013, serious crime in Cambridge has **decreased 8%** when measured against the same time period in 2012. Compared against the five-year weighted average for this same time frame, an **11% decline (393 fewer Part 1 crimes below the projected average)** have been recorded. The majority of this decrease can be attributed to the overall drop in burglary (-22%), with 109 fewer breaks recorded when contrasted with the same time period in 2012. The **28% decline** in the violent index crime of aggravated assault has also been a driving force in the crime reduction in 2013.

- A detailed analysis of all statistics indicates that there were **208 fewer property crimes recorded up until the next-to-last day** of 2013, which translates to a **7% decrease** when measured against the 2012 statistics. **Violent crime has abated 21% between January 1st and December 30th of 2013** when compared with the same time period in 2012.
- When measuring the serious crime totals versus the previous month of November, there was a substantial **29% decrease** in the number of index crimes, with 66 fewer incidents recorded during December of 2013.

	4 Week Snapshot			Year to Date			Five Year	
	11/5-12/2	12/3-12/30	Change	2012	2013	Change	Avg	Change

Total Part I Crime	227	161	-29%	3479	3184	-8%	3577	-11%

Part I Property Crime

Cambridge Police BridgeStat

- Totals for property crime indicate a 7% slip** below the number reported during the first twelve months of 2012, and a **9% drop** below the five-year average. The only larceny category to register a notable increase over the past four weeks was a **rise of 90% (9 additional reports) in thefts from residences, which can be attributed to the seasonal trend of holiday package / delivery larcenies. Burglary is down a notable 22% from 2012 and 19% below the five-year weighted average.**

	4 Week Snapshot				Year to Date			Five Year	
	11/5-12/2	12/3-12/30	Change		2012	2013	Change	Avg	Change

Total Property Crime	211	143	-32%		3060	2852	-7%	3138	-9%

Part I Violent Crime

- The violent index crimes of aggravated assault (-28%) and robbery (-9%) have registered significant declines when compared to 2012. Propelled on by these reductions, the overall total of violent crime is **down 21%** compared to the first twelve months of 2012 and has dropped 24% when measured against the five-year average (107 fewer incidents) below the projected total of 439 violent crimes.
- Despite the fact that there were only 18 violent crimes recorded in Cambridge during the month of December, there was a 13% increase reported over the previous month of November, when there were only sixteen violent crimes registered in Cambridge. Both of these monthly totals are exceptionally below the normal averages during the fourth quarter for Cambridge. The robbery increase in December (+125%) as compared to the previous month should be tempered by the fact that there were only four incidents in November.

	4 Week Snapshot			Year to Date			Five Year	
	11/5-12/2	12/3-12/30	Change	2012	2013	Change	Avg	Change

MURDER

No Patterns

- There have been three murders reported in Cambridge with one day remaining in 2013. Two of these incidents were recorded in April. The 3rd murder of the year occurred on November 25th.
- On April 10th, Aisling Brady McCarthy was charged with murder in the death of a Cambridge child who died in January. Aisling is awaiting trial.
- On April 18th, Cambridge Police received reports of shots fired on the MIT campus. At 10:30 p.m., an MIT police officer was found shot in his vehicle in the area of Vassar and Main Streets. Officer Sean Collier, 27, was found with multiple gunshot wounds. He was transported to Massachusetts General Hospital and pronounced deceased. On October 7th, 2013, the Middlesex Attorney's Office obtained a default warrant against Cambridge resident and Boston Marathon bombing suspect, Dzhokhar Tsarnaev for this incident.
- On November 25th, Jesse Maxwell's body was found in his apartment at 243 Broadway. An autopsy determined that the 73-year-old died as a result of injuries to the head and compression of the neck. His death has been ruled a homicide. Harold Antoine Maxwell, 34, of Cambridge, the victim's nephew, was arrested for this crime on November 26th. He was held without bail and will appear in court on Dec. 19th for a probable cause hearing.

Unsolved Murders: 1999 to 2013

Colin Burton, 30, of Dorchester, was shot and killed outside of Hi - Fi Pizza on Mass Ave in Central Square on September 18th, 1999. Burton was talking with the occupants of a Ford Explorer when the subject in the passenger seat fired through the window. Two suspects fled the scene. The case remains under active investigation.

September 18, 1999, Mass Ave

April 5 , 2002, Mass Ave

Ian Gray, 19, of Mattapan, was in an argument outside of the Rhythm & Spice restaurant that spilled out onto Mass Ave. A suspect that had left the scene returned with a group of people and a fight ensued. A knife was produced during the altercation and four gunshots were fired, fatally wounding Gray. This case remains open.

On June 17th, 2002 at 7:00PM, **Ricardo Williams**, 27, of Malden, was found in the driver's seat of a motor vehicle suffering from a gunshot wound to his face. Williams was taken to CCH where he was pronounced dead. This case remains open.

June 17, 2002, Windsor St.

Anyone with information about these crimes is asked to contact CPD at 617-349-3370.

Unsolved Murders: 1999 to 2013

Jason Ellcock, 33, of Malden, formerly of Cambridge and father of three, was found with multiple gunshot wounds in front of the driveway to 364 Rindge Ave at 3:05 AM on the night of June 16th, 2009. He was pronounced dead at the scene. This incident remains under investigation.

June 16, 2009, Rindge Ave

March 12, 2011, Brookline St.

James Lauture, 30, of Cambridge, was sitting in a vehicle near Brookline and Watson Streets just after midnight on Saturday, March 12th, 2011, when an unknown gunman opened fire. The occupants in the car were able to drive to Central Square. Lauture died from multiple gunshot wounds. The other man in the vehicle survived. This case remains open.

On June 3rd, 2012, **Charlene Holmes**, 16, of Cambridge was shot while sitting on a porch on Willow Street. She later succumbed to her wounds at the hospital. The investigation into this incident remains active, but no arrests have been made to date.

June 3, 2012, Willow St

Anyone with information about these crimes is asked to contact CPD at 617-349-3370.

RAPE

No Patterns

- Up until the next-to-last day of 2013, there were 24 rapes reported in Cambridge. During the same period in 2012, there were 28 incidents, which indicates a **14% reduction** from 2012 and a **17% decline** when compared to the five-year average of 29 sexual assaults for the time period between January 1st and December 30th.
- A breakdown of the rape classifications through December 30th, 2013 is as follows: there have been three (3) reports of rapes classified as domestic, eleven (11) involving acquaintances known to the victim, and five (5) incidents categorized as contact scenarios. Four (4) of the sexual assaults have yet to be categorized.
- The first and only stranger-to-stranger rape of the year was recorded in March. This incident involved a blitz type scenario late at night in Central Square. A Cambridge male has since been charged in this incident.
- Statistics released in October by the FBI reveal that rape decreased by .2% in the U.S. in 2012. The rate of forcible rapes in the U.S. in 2012 was estimated at 52.9 per 100,000 female inhabitants. The five-year average of rapes in Cambridge, a city of 106,000, is 30 incidents per year.

ROBBERY

No Patterns

- The five-year average for overall robbery in Cambridge for the first twelve months of the year is 149 incidents. From January 1st to December 30th of 2013, 117 robberies were recorded, which translates to a **21% decline** below the projected total.
- There was a **125% increase** in robberies from November to December due to the fact that there was an exceptionally low total of four incidents in November.
- Street robberies have **nosedived 30%** when measured against the five-year average, down 37 crimes from the projected total of 125 incidents. When compared with the same time frame in 2012, there has been a **21% decrease** from 112 to 88 street robberies.
- There have been 29 commercial robberies at: (10) banks, (10) convenience stores, (3) drug stores, (2) gas stations, a liquor store, a parking garage, a fast food chain, and a miscellaneous retail establishments so far in 2013.
- A major regional commercial robbery pattern involving the same suspect was identified in late October. This suspect was apprehended in Lynn at the end of November.

December 2013

There have been 29 commercial robberies at: (10) banks, (10) convenience stores, (3) drug stores, (2) gas stations, a liquor store, a parking garage, a fast food chain, and a miscellaneous retail establishment through 12.30.13.

Central Square Bank Robbery: Identification Needed

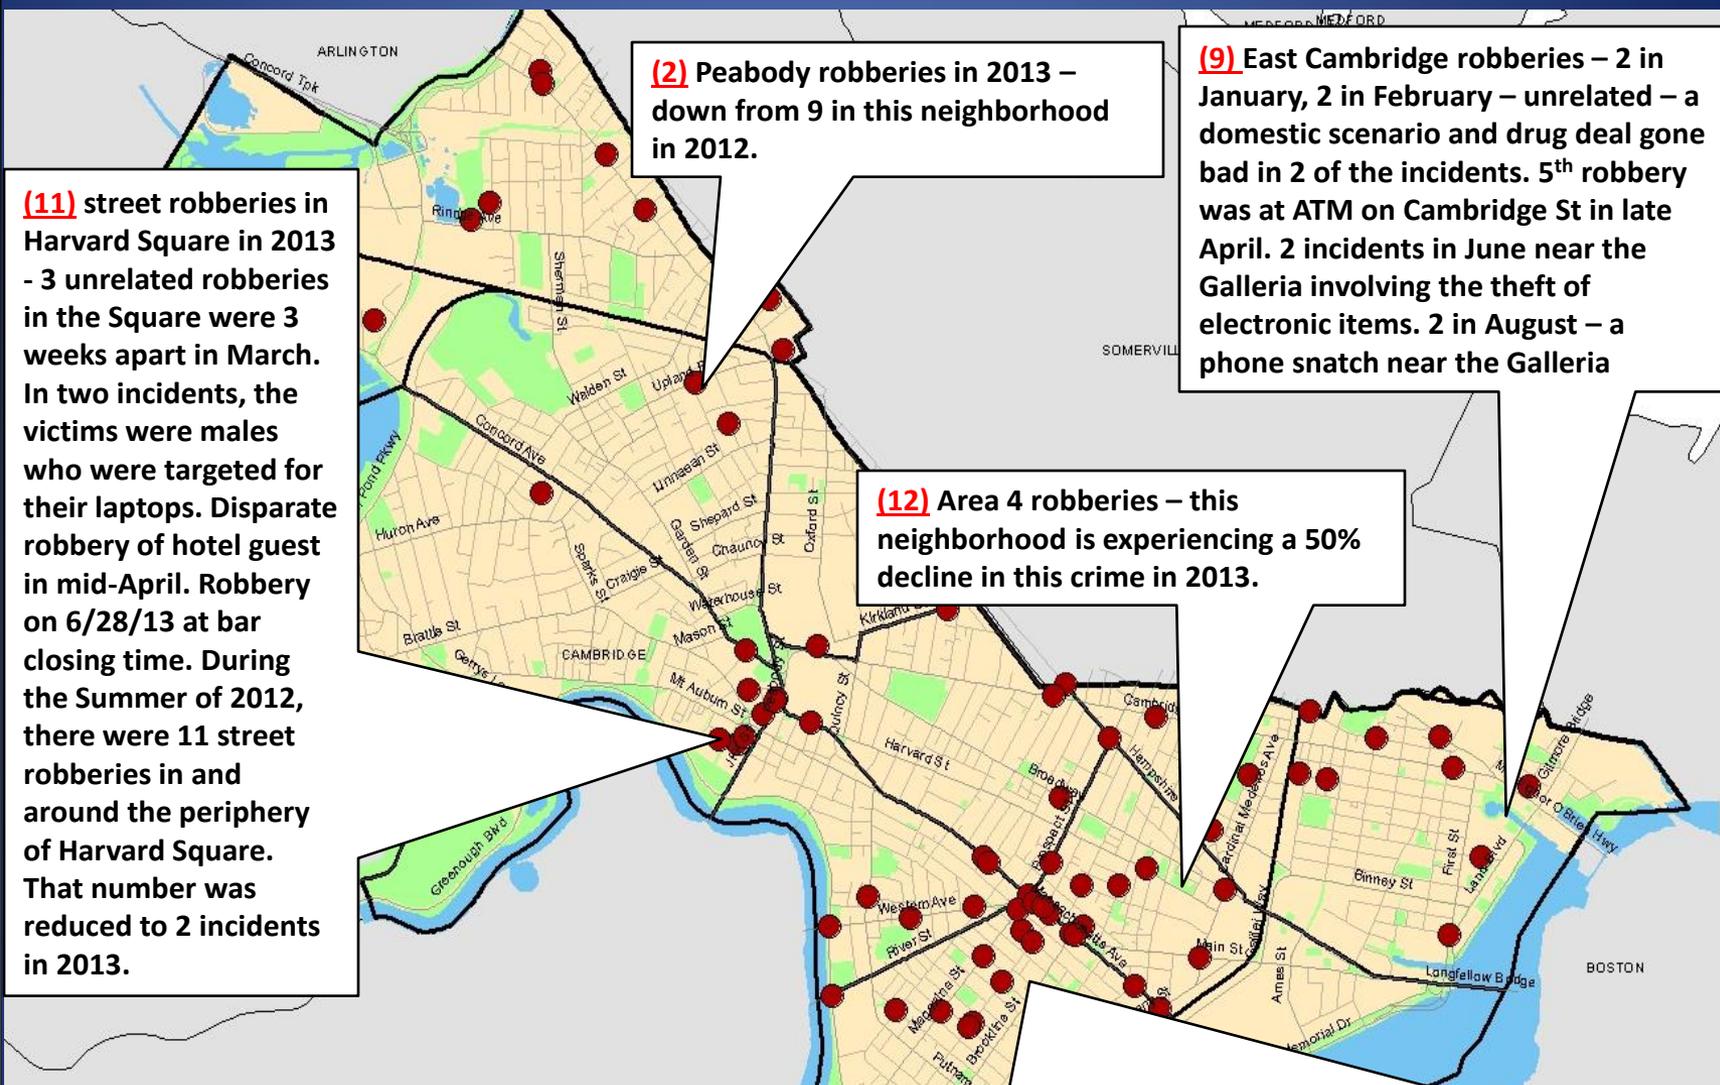

OVERVIEW: On 12/31/13 @ approximately 2:30 p.m., an unknown male passed a note demanding cash at the Bank of America at 727 Mass Ave, Cambridge, in Central Square. He was tracked to an MBTA red line train and subsequently to Charles/MGH station, but was not located. The suspect is described as a white male, early 20s, thin build, reddish hair, wearing a blue sweatshirt with "The Zone" written on back and a black stocking cap.

Street Robberies: 1/1/13 to 12/30/13

Cambridge Police BridgeStat

(19) street robberies were reported in Cambridgeport in 2013. 4 in July, 4 in August, 2 in September, and 1 in the past two months. Nearly 70% of the robberies were between 10:00PM and 2:00AM. Eight of the incidents took place within the confines of Central Square and involved the homeless. There have been no patterns identified in this area so far this year.

AGGRAVATED ASSAULT

No Patterns

- When compared to the time period through December 30th of 2012, aggravated assaults have registered a significant decline of 28%, with 74 fewer crimes recorded so far in 2013. When measuring this violent index crime against the five-year average for the time period between January 1st and December 30th, there has been a decline of 27%, with 71 incidents below the projected average of 259 assaults.
- The majority of the decline in aggravated assaults can be attributed to a drop of nearly 30% in violent crimes of a domestic nature in Cambridge over the course of the year in 2013.
- Other assault classifications such as homeless, bar /alcohol, and road rage have remained relatively unchanged so far in 2013.

Type	Number	% of Total
Domestic	62	33%
Homeless	25	13%
Bar /Alcohol	20	11%

-19%

- Up until the next-to-last day of 2013, there have been 389 total burglaries (the combination of residential and commercial burglaries) reported in Cambridge. This number has fallen **22%** when compared to last year during this time period and is **19% lower than the five-year average** of 483 incidents.
- Commercial burglary has **dropped 22%** when compared with 2012, with 17 fewer incidents reported, and has **slipped 25%** when measured against the five-year average of 83 breaks.
- Residential burglaries ("housebreaks") are **down 22%** through December 30th of 2013 with 92 fewer incidents reported and has **dipped down 18%** when measured against the five-year average.
- The December 2013 burglary total of 15 incidents is uncharacteristically low and is **down 58% from the previous month of November**. The majority of this decline can be attributed to the eradication of three housebreak patterns that had been a problem from late September to mid-November.

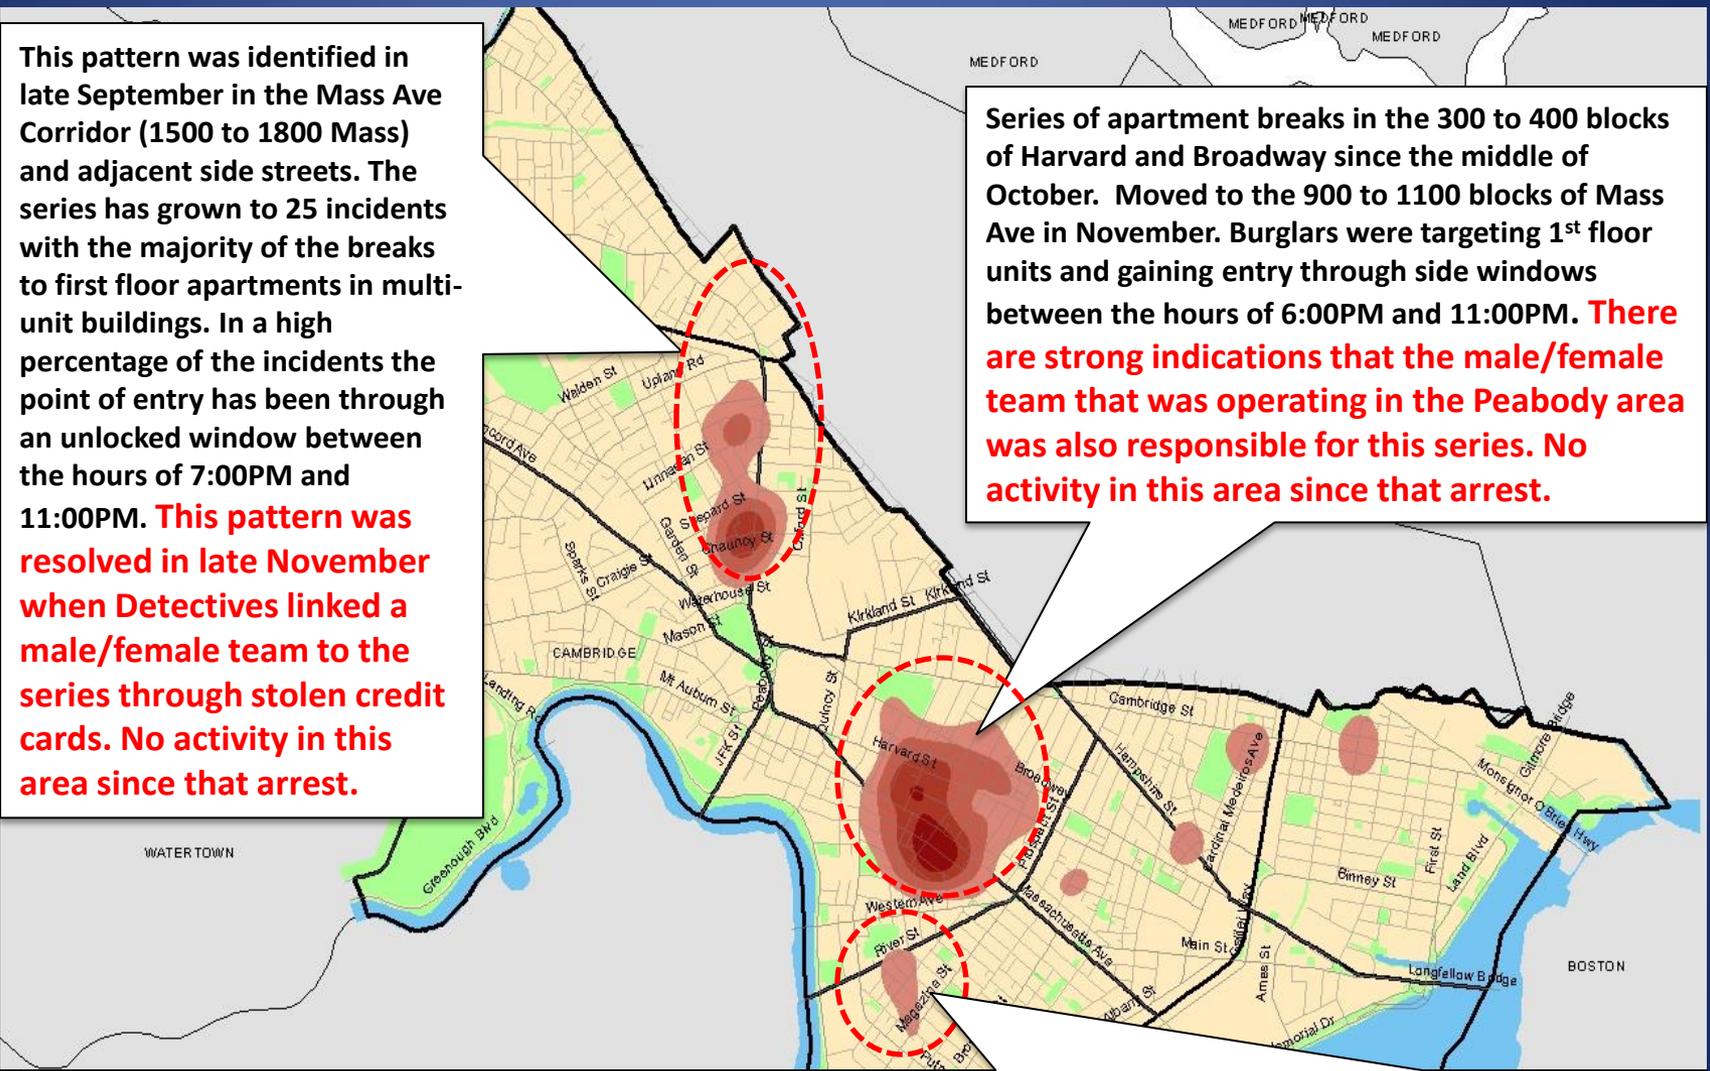

The (3) Major Housebreak Patterns of 2013 that were Resolved During the 4th Quarter

Cambridge Police BridgeStat

This pattern was identified in late September in the Mass Ave Corridor (1500 to 1800 Mass) and adjacent side streets. The series has grown to 25 incidents with the majority of the breaks to first floor apartments in multi-unit buildings. In a high percentage of the incidents the point of entry has been through an unlocked window between the hours of 7:00PM and 11:00PM. **This pattern was resolved in late November when Detectives linked a male/female team to the series through stolen credit cards. No activity in this area since that arrest.**

Series of apartment breaks in the 300 to 400 blocks of Harvard and Broadway since the middle of October. Moved to the 900 to 1100 blocks of Mass Ave in November. Burglars were targeting 1st floor units and gaining entry through side windows between the hours of 6:00PM and 11:00PM. **There are strong indications that the male/female team that was operating in the Peabody area was also responsible for this series. No activity in this area since that arrest.**

This pattern was identified in lower Cambridgeport around Putnam Ave and Allston St during the first week of October. A suspect was identified and warrants have been issued. **The suspect, a former Port resident, was connected to this series via fingerprints and video surveillance. There has been no activity in this area since his arrest.**

LARCENY

No Patterns

- Overall, **larceny year-to-date has decreased by 4%** when compared with 2012 and is down 6% when measured against the five-year weighted average for this time frame.
- **Larcenies from motor vehicles are down 11% year-to-date** when compared with the same time frame in 2012. LMVs dropped 51% from 37 in November to 18 in December. Cambridgeport and Mid-Cambridge each saw four reports, but no patterns emerged.
- **Larcenies from persons citywide in 2013 have registered 8% below the level reported in 2012** with 28 fewer incidents this year, while the 2013 year-to-date total came in just 4 incidents below the five-year average of 344 incidents.
- **There have been 386 larcenies from buildings reported citywide through December 30th of 2013.** This total is 14 crimes above the number reported during this time frame in 2012 and 2 below the five-year average. There were five thefts from construction sites citywide in December, three of which took place at the same site in North Cambridge. It is unknown if any or all are related.
- In 2013, there have been **379 bike thefts**. This total is 23 incidents (6%) above the 356 reported in 2012. Bike thefts dropped by 65% (15 incidents) in December when compared with November. Only East Cambridge and Area 4 experienced more than one bike theft in December, with two each.

LARCENY: *From MVs*

No Patterns

- Larcenies from MVs **are down 11% through December 30th of 2013** when compared with the same time frame in 2012. There have been 72 fewer thefts reported this year. This target crime has **fallen 18%** when measured against the five-year average, with **134 fewer incidents** than the projected total of 747 thefts.
- This index crime declined 51% from November to December. LMVs dipped from 37 thefts last month to 18 between December 3rd to 30th. There have been no significant larceny from motor vehicle patterns in the city over the past two months.
- Sporadic thefts from unlocked vehicles are still occurring in Cambridgeport / Riverside but at a much slower rate than over the previous six months. Extra patrols and citizens' locking of vehicles appears to be an effective deterrent for this crime.

Larceny from MVs: 1/1/13 to 12/30/13

Cambridge Police BridgeStat

101 thefts from cars in Mid-Cambridge in 2013 (16% of citywide total). There have been 49 LMV thefts in this neighborhood since September 1st. A high percentage of these crimes are entry into unlocked cars with loose change and personal items as the target. Arrests during August point to activity by homeless and vagrants after midnight between Thursday and Sunday night. Extra patrols over the last 2 weeks in November have abated some of this activity.

58 LMV thefts in Area 4 year-to-date. Major patterns were clustered around Pine, Cherry, Washington, and Windsor Streets during late June into July. Sporadic thefts into unlocked MVs over the past 3 months.

West Cambridge has seen **73 LMVs** (12% of the citywide total) year-to-date, 37% below 2012 total. Major pattern reported during the last two weeks of June in a hotspot cluster in the Mt Auburn & Sparks St area. Two arrests (a Somerville resident on June 28th and a Cambridge juvenile in mid July) appear to have eradicated this series of car breaks. Area has been quiet over the last 3 months.

Cambridgeport /Riverside has been the major hot spot for LMVs in the City in 2013. There have been 170 incidents in this area (28% of the citywide total). A very high percentage of the crimes occurred between 10:00PM and 3:00 AM on Thursday, Friday, and Saturday nights with thefts from unlocked cars

Larceny from Motor Vehicles

What can we do?

Police Response Strategy:

- Cambridge Police are focused on prevention of these crimes by increasing officer visibility in targeted areas.
- Citizens are encouraged to take the proper precautions to protect their vehicles and their belongings by doing everything possible to not make their vehicles easy targets.

Citizen Response Strategy:

- Citizens are asked to take the following precautions to protect themselves, their vehicles, and their belongings from theft:
 - Make sure all of your car doors are locked when you leave your vehicle.
 - Take extra care when out doing your shopping.
 - If you are **approached by a suspicious person** while you are in your vehicle, **sound your horn to attract attention.**
 - **NEVER LEAVE VALUABLES EXPOSED IN YOUR CAR.**
 - If you must leave packages or valuables in your car, **place them in the trunk of under a blanket to conceal them**
 - Visit our website for more tips to keep your vehicles and belongings at www.CambridgePolice.org/SafetyTips

LARCENY: *from Person*

No Patterns

Last 4 Weeks

+29%

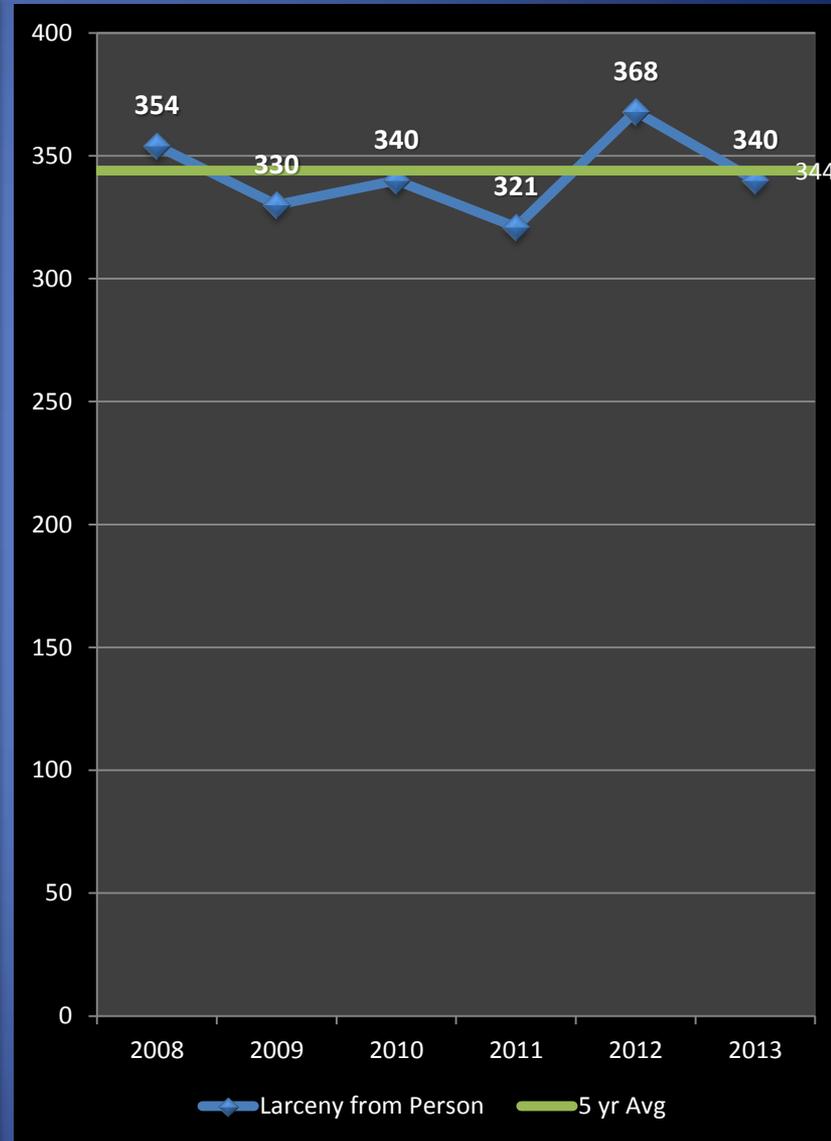

Previous Year

-8%

5 Year Average

-1%

- **Larcenies from the person are down 28 incidents (8%) through 12/30/13** when compared with 2012. The total of 340 incidents reported in 2013 is just 4 incidents (1%) below the five-year average of 344.
- Larcenies from the person citywide rose by six incidents from November (21 thefts) to December (27 thefts). Often, much of this activity is reported at the many bars and restaurants in Harvard Square (known as "dipper" activity). However, only three larcenies were reported in the Square in December. Notably, however, there were nine thefts reported from shoppers/diners at the Galleria Mall over the month.
- Two arrests were made for larceny from the person in December. On December 10th, two females from Boston were arrested after they stole a wallet from a patron of a clothing store in the Galleria Mall.

LARCENY: of Bicycle

No Patterns

- There were 379 bike thefts reported through 12/30/13, which is 23 incidents (6%) above the 356 reported during the same time frame in 2012 and 29 (8%) above the five-year average of 350 thefts.
- Bike thefts dropped by 65% (15 incidents) from November to December. As would be expected, both bike ridership and bike thefts waned with the cold and snowy weather this month. Only East Cambridge and Area 4 saw multiple thefts, with two each.
- The majority of thefts this year (57%) have involved bikes that were locked but left out in the open (locked to public bike racks, for example).
- **Breakdown by Neighborhood, year-to-date:**

Larceny of Bicycles: 6/1/13 to 12/30/13

Cambridge Police BridgeStat

Central Square
 Central Square has been the hotspot for bike theft activity in 2013, with 89 of the 379 thefts (23%) reported citywide year-to-date. However, there were only 15 stolen in the 4th quarter, as the colder weather has led to fewer bikes left out to steal. The 400–700 blocks of Mass Ave have seen the brunt of the Central Square activity this year. A majority of the bikes in this area had been locked to bike racks on weekdays when they were stolen.

Harvard Square
 Nearly 14% of the bike thefts citywide in 2013 were reported in Harvard Square. 52 thefts have been reported in the past six months. However, incidents in this area have been on the decline since the summer, dropping from 20 in August, to 6 in September, to 4 in October, to 0 in November and 1 in December. This is due largely to the reduction in bike ridership that occurs annually with the cooler fall & winter weather.

Larceny of Bicycles:

What Can We Do?

Police Response Strategy:

- Bicyclists stopped for infractions will be reminded to use lights when biking at night, wear helmets under the age of 16, and other safety tips to promote safer biking in the city.

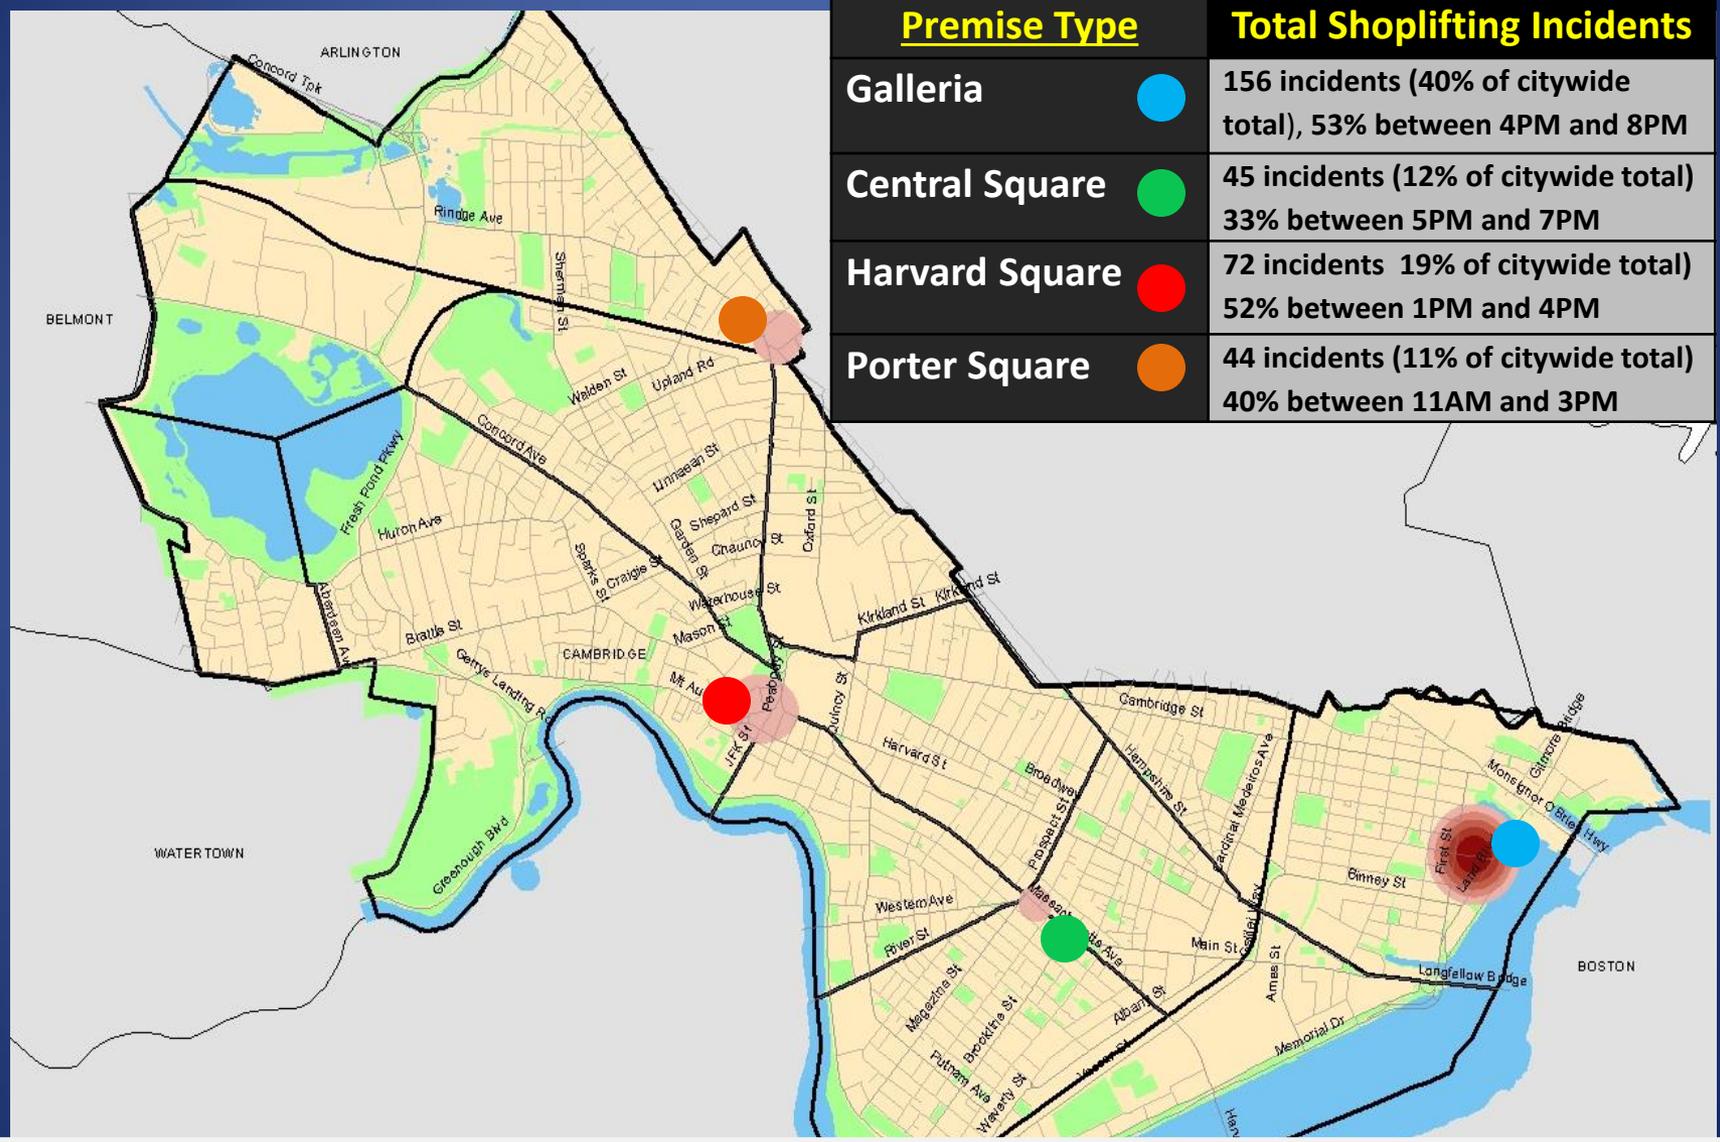

Citizen Response Strategy:

- Bicyclists are encouraged to record their bike's serial number as well as take a picture of their bike to provide to police in the event that it is lost or stolen.
- For information on bicycle safety, visit: www.CambridgePolice.org/CommunityResources.
 - Click on the "Bicycle Safety and Registration" link.
- Stores should be vigilant in recording serial numbers and customer information on sales.
- Universities should encourage students to register their bikes and distribute information on the correct locking procedures.

Shoplifting: 1/1/13 to 12/30/13

<u>Premise Type</u>		<u>Total Shoplifting Incidents</u>
Galleria	●	156 incidents (40% of citywide total), 53% between 4PM and 8PM
Central Square	●	45 incidents (12% of citywide total) 33% between 5PM and 7PM
Harvard Square	●	72 incidents 19% of citywide total) 52% between 1PM and 4PM
Porter Square	●	44 incidents (11% of citywide total) 40% between 11AM and 3PM

Shoplifting has increased 13% in Cambridge through December 30th of 2013. This index crime is also 10% above the projected five-year average. Incidents of shoplifting have risen 21% at the Galleria Mall in 2013.

AUTO THEFT

No Patterns

Percent Change

Last 4 Weeks

-63%

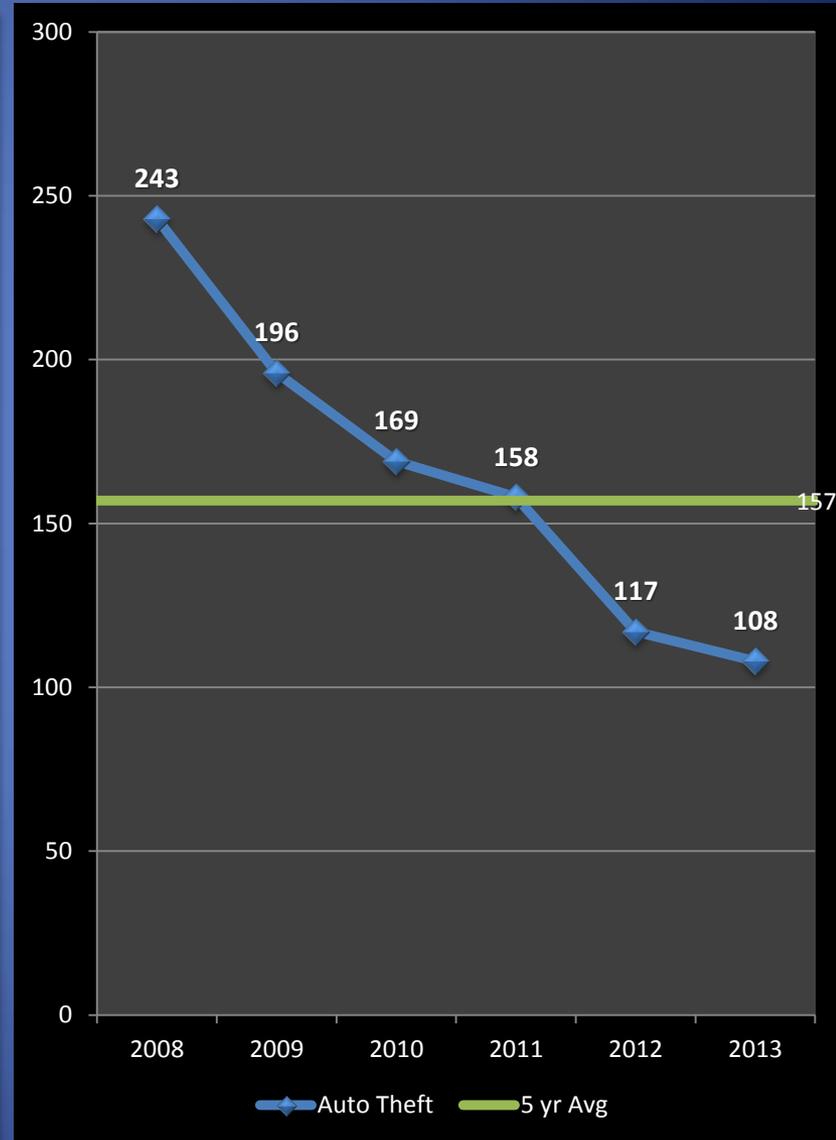

Previous Year

-8%

5 Year Average

-31%

- The projected five-year weighted average for auto thefts through Dec. 30th is 157 incidents. In 2013, auto thefts registered well below this level with only 108 reported, translating to a **31% decline**. This number is also 9 thefts below the total of 117 reported in 2012, equaling an **8% drop**.
- Only three vehicles have been reported stolen in the past four weeks, **down 63%** from the previous four-week total of eight. Two thefts were reported in Riverside, while Inman and North Cambridge each reported one during the month of December.
- Since the beginning of the year, Cambridgeport and Mid-Cambridge experienced the most auto thefts citywide, with 21 and 19 thefts, respectively.
- Year-to-date, **52%** (or 56) of the stolen motor vehicles have been recovered.
