**Notes on Zoning Regulations Table**

**Max. FAR** = maximum allowed ratio of gross floor area on a parcel divided by the total land area of the parcel ("floor area ratio"). Where a slash (/) separates two figures, the first applies to non-residential and the second to residential & dormitory uses.

**Min. Lot Area/DU** = minimum allowed ratio of a parcel's lot area, expressed in feet, divided by the number of dwelling units on that parcel.

**Min. Setback** = minimum required distance between a parcel's lot line (front, side, or rear) and the wall of a building, in feet. The symbol (H+L) in a formula represents the height of the building plus the length of the building parallel to that lot line.

**Max. Height** = maximum allowed building height on a parcel, in feet. A slash (/) has the same meaning as under Max. FAR (see above).

**Min. OS Ratio** = minimum required ratio of usable open space on a parcel (not including parking) to total land area, expressed as a percentage.

**General range of allowed uses** gives an overview of the types of uses permitted by zoning in that district, but does not refer to specific allowed uses. See Article 4 of the Zoning Ordinance for the detailed Table of Use Regulations.

Planned Unit Development (PUD) Districts	
PUD overlay districts provide flexible zoning standards for multi-site phased development with a variety of land uses and densities. A developer may choose to conform to PUD controls in lieu of the base district requirements, but must receive a special permit from the Planning Board. See Articles 12 and 13 of the Zoning Ordinance.

**Alewife Overlay Districts (AOD-1,2,3,4,5,6)**

These overlays modify the dimensional provisions of the base districts, generally allowing greater height and FAR by special permit from the Planning Board, but also imposing additional requirements for open space, permeability, setbacks, etc. For details see Section 20.90 of the Zoning Ordinance.
