A DECISION GUIDE TO PLANNING "WHERE WILL I LIVE?"

Steven Covey, US author and educator, wrote: “Every human has four endowments: self awareness, conscience, independent will and creative imagination. These give us the ultimate human freedom — The power to choose, to respond, to change.” So many changes happen as we age. It is often hard to see them as choices and opportunities rather than losses. How we prepare for them and respond to them however, makes all the difference. This decision guide is prepared to help you think through decisions you may need to make about where you live as you grow older. Some things may be out of your control, such as changes in health, finances and family. Knowing what is important to you about wherever you call “home” will help you make decisions should circumstances or choice necessitate a change in your living situation.
