

Pavement Marker Specifications

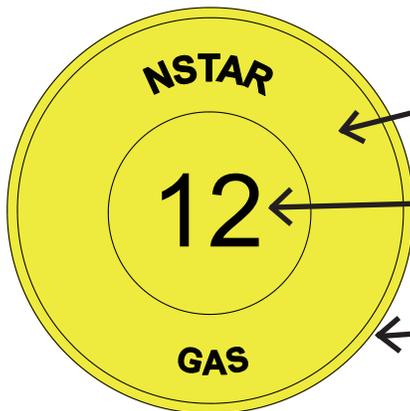

Manufacturers of A-tag pavement markers can be found online. The marker must be:

- Made of a UV stable polypropylene material
- Have a flat top measuring from 1.5" to 2.5" in diameter
- Must have three anchor legs that have locking steps
- Outer ring must clearly state name of contractor
- Inner ring must display two digit year
- A-Tag must be the color that was assigned to your company

Pavement markers must meet stated specifications and can be ordered through manufacturing companies such as Rhino Markers (www.rhinomarkers.com) or equal.

Marker Face

Outer ring displays name of contractor -
Can be up to 32 characters including spaces

Current Year

Tag must be assigned tag color:

NSTAR Gas - Yellow
NSTAR Electric - Red
Comcast - Orange
Verizon - Orange
Veolia - White

The A-tag manufacturer should send you a sample or proof to review before you place your order. **Please forward a copy of this design to the City for review and approval before placing your order.** Email proofs to rlinke@cambridgema.gov. Questions and inquiries can be directed to Robert Linke, Permit Administrator at (617) 349-4833.
