

Grand Junction Path Site Visit Worksheet

In August and September, explore at least one publicly-accessible area along the Grand Junction corridor. As a reminder, do not go on the railroad right of way. The railroad right-of-way is not only the tracks or areas immediately next to it; it can be up to the whole space between buildings. The MBTA or other property owners can charge you with trespassing.

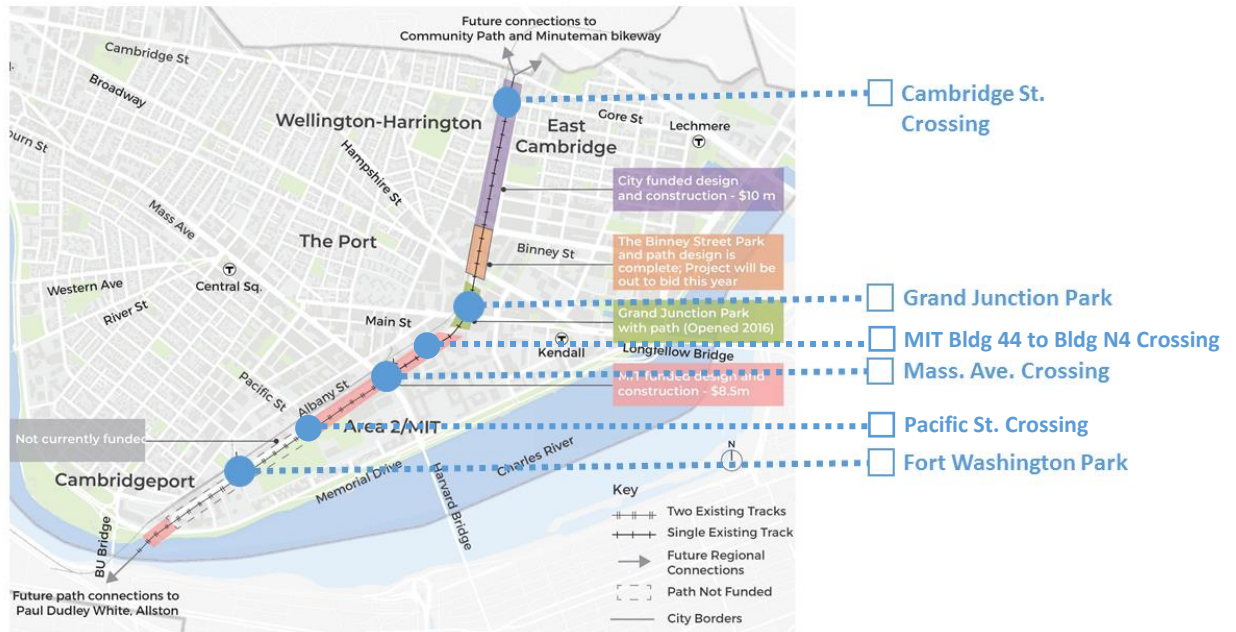

We have listed six locations below. Visit multiple locations or one location on different days or parts of the day to note differences. Take notes on your experiences on this sheet.

- Complete one worksheet per location
- Send completed worksheets and photos you'd like to show to others to:
 - Andy Reker areker@cambridgema.gov
- Fill out any part of the form you feel like commenting on – it's okay to skip items!

Thank you for your input! If you have questions, contact Andy or Tegin.

Site visit information:

1. Which location did you visit? *Mark box or approximate location.*

2. What day and time was your visit?
3. How did you get to and from this location? *Circle all that apply.*
 Walk Personal Bike Bike Share Bus Train Drive Shared Ride
 Other (describe):
4. If the multi-use path were in place today, would you change how you get to and from this location?
5. Did you visit alone or with others? *Describe your group, if applicable.*

Your observations:

General

1. What do you like/dislike about this location?

Connections

2. How do people access this location? How do they use the cross streets, if applicable?
3. What are some important destinations around this location that the path could connect?

Safety

4. Does it generally feel comfortable and safe? Would this change at a different time of day?
5. Are crossing locations safe? For you? For a child? For a person using a mobility device?

Separation

6. What type of separation seems appropriate between the trail and the rail?
7. What type of separation seems appropriate between people walking/jogging/biking?

Design and Amenities (landscaping, gardens, seating, lighting, signage, public art)

8. What good design elements or types of amenities are provided at or near this location?
9. What would you like provided at or near this location?

Usability

10. How do people currently use this space? *Note as many as possible.*
11. How do you envision they could use the space?
