

Requested Special Permits	Summarized Findings <i>(detailed zoning text on following pages)</i>
Medical Marijuana Dispensary Use in Industry A-1 District (Sections 11.800)	<ul style="list-style-type: none"> • Location shall serve an area that currently does not have reasonable access to medical marijuana. • The location is at least five hundred feet from a school, daycare center, preschool or afterschool facility or any facility in which children commonly congregate, or if not located at such a distance, it is sufficiently buffered from such facilities such that its users will not be adversely impacted by its operation. • Site design provides convenient, safe and secure access and egress for clients and employees arriving to and leaving from the site using all modes of transportation, including drivers, pedestrians, bicyclists and public transportation users. • Traffic generated shall not create a substantial adverse impact on nearby residential uses. • Loading, refuse and service areas are designed to be secure and shielded from abutting uses. • Building and site are designed to be compatible with other buildings in the area and to mitigate any negative aesthetic impacts that might result from required security measures and restrictions on visibility into the building's interior.
General Special Permit Criteria (Section 10.43)	Special permits will be normally granted if the zoning requirements are met, unless it is found not to be in the public interest due to one of the criteria enumerated in Section 10.43 (see appendix).

Special Permit for Registered Medical Marijuana Dispensary Use in Industry A-1 District

11.801 *Statement of Purpose.* The purpose of this section is to provide for the limited establishment of Registered Marijuana Dispensaries as they are authorized pursuant to state regulations set forth at 105 CMR 725.000, Implementation of an Act for the Humanitarian Medical Use of Marijuana. That it is the intent of this ordinance, subject to state regulations, that any approved medicinal marijuana facility shall not physically incorporate a future recreational marijuana facility within the same location to the extent permitted by law.

11.802 Requirements

11.802.1 *Use.* Notwithstanding the use limitations of the base zoning district or any other overlay zoning district, a Registered Marijuana Dispensary shall be allowed within the Medical Marijuana Overlay District upon the granting of a special permit by the Planning Board, subject to the requirements set forth in this Section.

11.802.2 *Registration.* All permitted Registered Marijuana Dispensaries shall be properly registered with the Massachusetts Department of Public Health pursuant to 105 CMR 725.100 and shall comply with all applicable state and local public health regulations and all other applicable state and local laws, rules and regulations at all times. No Building Permit or Certificate of Occupancy shall be issued for a Registered Marijuana Dispensary that is not properly registered with the Massachusetts Department of Public Health.

11.802.3 *Limitation of Approval.* A special permit authorizing the establishment of a Registered Marijuana Dispensary shall be valid only for the registered entity to which the special permit was issued, and only for the site on which the Registered Marijuana Dispensary has been authorized by special permit. If the registration for a Registered Marijuana Dispensary has not been renewed or has been revoked, transferred to another controlling entity, or relocated to a different site within the Medical Marijuana Overlay Districts, a new special permit shall be required prior to issuance of a Certificate of Occupancy.

This ordinance will be reconsidered by the Ordinance Committee if upcoming recreational marijuana regulations created by the Commonwealth of Massachusetts impacts the location and desirability of medical marijuana facilities, in particular the possibility of having a joint location for both now allowed medicinal services and future recreational services.

11.802.4 *Building.* A Registered Marijuana Dispensary shall be located only in a permanent building and not within any mobile facility. All sales shall be conducted either within the building or by home deliveries to qualified clients pursuant to applicable state and local regulations.

11.802.5 *Dimensional Requirements.* Except where it is explicitly stated otherwise in this Section 20.700, a Registered Marijuana Dispensary shall conform to the dimensional requirements applicable to non-residential uses within the base and overlay zoning districts.

- 11.802.6** *Parking and Loading.* Notwithstanding anything to the contrary in Article 6.000 of this Ordinance, the required number of parking and bicycle parking (both long-term and short-term) spaces and the required number of loading bays for a Registered Marijuana Dispensary shall be determined by the Planning Board based on the transportation analysis and other information related to operational and security plans provided by the applicant. Except as set forth above, all parking, bicycle parking and loading facilities shall conform to the requirements set forth in Article 6.000.
- 11.802.7** *Signage.* All signage shall conform to the requirements of Article 7.000 of this Ordinance. The Planning Board may impose additional restrictions on signage as appropriate to mitigate any aesthetic impacts.
- 11.802.8** *Location.* Registered Marijuana Dispensaries shall be allowed only by Planning Board Special Permit within the Business A, Business B, Business B-1, Business B-2, Business C, Industry A-1, Industry B-1 and Industry B-2 districts. No Registered Marijuana Dispensaries shall be allowed within 1,800 feet of another Registered Marijuana Dispensary.
- 11.804** *Special Permit Criteria.* In granting a special permit for a Registered Marijuana Dispensary, in addition to the general criteria for issuance of a special permit as set forth in Section 10.43 of this Ordinance, the Planning Board shall find that the following criteria are met:
- (a) The Registered Marijuana Dispensary is located to serve an area that currently does not have reasonable access to medical marijuana, or if it is proposed to serve an area that is already served by other Registered Marijuana Dispensaries, it has been established by the Massachusetts Department of Public Health that supplemental service is needed.
 - (b) The site is located at least five hundred feet distant from a school, daycare center, preschool or afterschool facility or any facility in which children commonly congregate or if not located at such a distance, it is determined by the Planning Board to be sufficiently buffered from such facilities such that its users will not be adversely impacted by the operation of the Registered Marijuana Dispensary.
 - (c) The site is designed such that it provides convenient, safe and secure access and egress for clients and employees arriving to and leaving from the site using all modes of transportation, including drivers, pedestrians, bicyclists and public transportation users.
 - (d) Traffic generated by client trips, employee trips, and deliveries to and from the Registered Marijuana Dispensary shall not create a substantial adverse impact on nearby residential uses.
 - (e) Loading, refuse and service areas are designed to be secure and shielded from abutting uses.
 - (f) The building and site have been designed to be compatible with other buildings in the area and to mitigate any negative aesthetic impacts that might result from required security measures and restrictions on visibility into the building's interior.

General Criteria for Issuance of a Special Permit

- 10.43** *Criteria.* Special permits will normally be granted where specific provisions of this Ordinance are met, except when particulars of the location or use, not generally true of the district or of the uses permitted in it, would cause granting of such permit to be to the detriment of the public interest because:
- (a) It appears that requirements of this Ordinance cannot or will not be met, or
 - (b) traffic generated or patterns of access or egress would cause congestion, hazard, or substantial change in established neighborhood character, or
 - (c) the continued operation of or the development of adjacent uses as permitted in the Zoning Ordinance would be adversely affected by the nature of the proposed use, or
 - (d) nuisance or hazard would be created to the detriment of the health, safety and/or welfare of the occupant of the proposed use or the citizens of the City, or
 - (e) for other reasons, the proposed use would impair the integrity of the district or adjoining district, or otherwise derogate from the intent and purpose of this Ordinance, and
 - (f) the new use or building construction is inconsistent with the Urban Design Objectives set forth in Section 19.30. **[SEE FOLLOWING PAGE]**

19.30 Citywide Urban Design Objectives [SUMMARIZED]

Objective	Indicators
New projects should be responsive to the existing or anticipated pattern of development.	<ul style="list-style-type: none"> • Transition to lower-scale neighborhoods • Consistency with established streetscape • Compatibility with adjacent uses • Consideration of nearby historic buildings
Development should be pedestrian and bicycle-friendly, with a positive relationship to its surroundings.	<ul style="list-style-type: none"> • Inhabited ground floor spaces • Discouraged ground-floor parking • Windows on ground floor • Orienting entries to pedestrian pathways • Safe and convenient bicycle and pedestrian access
The building and site design should mitigate adverse environmental impacts of a development upon its neighbors.	<ul style="list-style-type: none"> • Location/impact of mechanical equipment • Location/impact of loading and trash handling • Stormwater management • Shadow impacts • Retaining walls, if provided • Building scale and wall treatment • Outdoor lighting • Tree protection (requires plan approved by City Arborist)
Projects should not overburden the City infrastructure services, including neighborhood roads, city water supply system, and sewer system.	<ul style="list-style-type: none"> • Water-conserving plumbing, stormwater management • Capacity/condition of water and wastewater service • Efficient design (LEED standards)
New construction should reinforce and enhance the complex urban aspects of Cambridge as it has developed historically.	<ul style="list-style-type: none"> • Institutional use focused on existing campuses • Mixed-use development (including retail) encouraged where allowed • Preservation of historic structures and environment • Provision of space for start-up companies, manufacturing activities
Expansion of the inventory of housing in the city is encouraged.	<ul style="list-style-type: none"> • Housing as a component of large, multi-building development • Affordable units exceeding zoning requirements, targeting units for middle-income families
Enhancement and expansion of open space amenities in the city should be incorporated into new development in the city.	<ul style="list-style-type: none"> • Publicly beneficial open space provided in large-parcel commercial development • Enhance/expand existing open space, complement existing pedestrian/bicycle networks • Provide wider range of activities

Eastern Cambridge Design Guidelines – Summary of Relevant Design Principles & Guidelines

Urban Design Goals - Neighborhoods

1. Preserve and enhance neighborhood character.
2. Maintain the walkable scale and character of residential blocks.
3. Support and strengthen businesses on Cambridge Street, Broadway, and Main Street.

Street-level Uses and Design – Mixed Use Blocks

1. Street-level facades should include active uses such as:
 - Shops, restaurants, and cafes
 - Services for the public or for offices such as fitness centers, cafeterias, daycare, etc.
 - Community spaces, such as exhibition or meeting space
 - Art exhibition space/display windows
 - Commercial lobbies and front doors
2. Major entrances should be located on public streets, and at or near corners wherever possible.
3. Transparent materials and interior lighting should be used to maximize visibility of street level uses. Ground floor facades should be at least 30 to 50 % transparent surface.
4. Blank walls should be avoided along all streets and pedestrian walkways.

Building Height and Orientation – Major Public Streets

1. Setbacks used exclusively for ornamental landscaping are not permitted but may be allowed to accommodate street furniture, street trees, or generous sidewalks. Awnings and canopies are encouraged.
2. Locate loading docks on side streets or service alleys, and away from residential areas.
3. In use, design, and entry, orient buildings towards corners.

Architectural Character

1. Create varied architecture and avoid flat facades by using recessed or projected entryways, bays, canopies, awnings, and other architectural elements. i

Environmental Guidelines

1. Rooftop mechanical equipment should be sited and shielded to protect neighboring uses from noise impacts.

Parking

1. While underground parking is preferable everywhere, if above ground parking is to be built it should be designed so as not to be visible from public streets or pathways.
2. Locate vehicular parking entrances on side streets and alleys and provide safe pedestrian access from public streets.
3. Design and locate lighting fixtures in surface parking lots and garages to enhance safety while minimizing light spillover onto adjacent properties

Public Realm

1. Use streetscape elements such as trees, benches, signage, and lighting to support active pedestrian uses and to reinforce the character and identity of each district.
2. Provide safe pedestrian and bicycle connections to existing and new bus stops and transit stations
