Re: Special Permit Application for GreenSoul Organics, LLC
759 Massachusetts Avenue, Cambridge, MA 02139

Dear Ms. Paden:

On behalf of GreenSoul Organics, LLC we are pleased to submit to the City of Cambridge the accompanying application and supporting documentation for a Special Permit to operate an Adult-Use Marijuana Establishment.

We believe the documents satisfy the requirements identified in the City of Cambridge Planning Board Special Permit Application Requirements. Please let us know if you require any further information.

Thank you in advance for your assistance and your consideration.

Sincerely,

Tabasuri Moses

CITY OF CAMBRIDGE, MASSACHUSETTS

PLANNING BOARD

CITY HALL ANNEX, 344 BROADWAY, CAMBRIDGE, MA 02139

SPECIAL PERMIT APPLICATION • COVER SHEET

In accordance with the requirements of the City of Cambridge Zoning Ordinance, the undersigned hereby petitions the Planning Board for one or more Special Permits for the premises indicated below.

Location of Premises: 759 Massachusetts Avenue, Cambridge, MA 02139

Zoning District: Business B (BB) District

Applicant Name: GreenSoul Organics, LLC, Mr. Tabasuri Moses

Applicant Address: 500 Tremont Street, Dorchester, MA 02122

Contact Information: 857-719-1974 taba@greensoulorganics
Telephone # Email Address Fax #

List all requested special permit(s) (with reference to zoning section numbers) below. *Note that the Applicant is responsible for seeking all necessary special permits for the project. A special permit cannot be granted if it is not specifically requested in the Application.*

GreenSoul Organics, LLC is applying for Special Permit per Section 10.40 of the City of Cambridge zoning ordinance and per Section 11.800 the zoning of cannabis uses. GreenSoul Organics, LLC is applying for a Special Permit to operate an Adult - Use Marijuana Retail establishment.

List all submitted materials (include document titles and volume numbers where applicable) below.

Special Permit Cover Sheet, Dimensional Form, Fee Schedule, Ownership Certificate, Project Narrative, Proposed Floor Plans, Perspective Views, and our Context Maps-(300' Radius, 500' Radius, and 1800' Radius). Attached documentation includes: Distance Diagram, Existing and Proposed Site Plans, and Building Elevations.

Signature of Applicant: 

For the Planning Board, this application has been received by the Community Development Department (CDD) on the date specified below:

Fee Schedule

FEE SCHEDULE

Project Address:

Application Date:

The Applicant must provide the full fee (by check or money order) with the Special Permit Application. Depending on the nature of the proposed project and the types of Special Permit being sought, the required fee is the larger of the following amounts:

- If the proposed project includes the creation of new or substantially rehabilitated floor area, or a change of use subject to Section 19.20, the fee is ten cents (\$0.10) per square foot of total proposed Gross Floor Area.
- If a Flood Plain Special Permit is being sought as part of the Application, the fee is one thousand dollars (\$1,000.00), unless the amount determined above is greater.
- In any case, the minimum fee is one hundred fifty dollars (\$150.00).

Fee Calculation

New or Substantially Rehabilitated Gross Floor Area (SF): × \$0.10 =

Flood Plain Special Permit Enter \$1,000.00 if applicable:

Other Special Permit Enter \$150.00 if no other fee is applicable:

Project Narrative

GreenSoul Organics, LLC
759 Massachusetts Avenue, Cambridge, MA 02139
Proposed Adult Use Marijuana Retail Store

Project Narrative and Special Permit Criteria

Project Narrative

GreenSoul Organics, LLC, (GSO), an Economic Empowerment Applicant, is applying for an Adult-use recreational marijuana retail license in the state of Massachusetts. GreenSoul Organics is proposing to repurpose the first floor and the basement of the existing building at 759 Massachusetts Avenue to operate a Cannabis Retail Store. The proposed retail space is located within an existing 4-story mixed-use building dating from 1888. The project does not propose adding any off-street parking. The project includes the interior renovation of the 1,365 square feet located on the first floor of the existing structure and includes minor renovations to the exterior façade. There are existing heating, ventilating, and air conditioning (HVAC) units in the rear of the building. GSO does not propose at this time to alter or add any HVAC units for this project. The existing HVAC units have ample supply for our proposed use. As further discussed in our Special Permit response we are not proposing any exterior lighting to the façade. The site is within the Central Square Overlay District and in the Central Square National Register District. GSO met with the Cambridge Community Development Department (CCDD) on March 11, 2020, and incorporated all comments and recommendations into our design, and project. Based upon feedback at the meeting with the CCDD, GSO is submitting a certificate of appropriateness with the Cambridge Historical Commission for this project.

GreenSoul Organics, LLC takes great pride in being an Economic Empowerment Applicant and has a vision of connecting cultures and generations through the responsible and stigma-free use of cannabis. GSO will work in conjunction with the Green Soul Foundation to assist people of color to have the tools they need to contribute to the growing cannabis industry.

GreenSoul Organics has also agreed to partner with the Last Prisoner Project (LPP), please see Section 12, LPP's letter of intent. The Last Prisoner Project focuses on three key criminal justice reform initiatives, prisoner release, record clearing through clemency and expungement, and reentry programs. A core social justice focus is to release incarcerated cannabis prisoners. Data shows, however, that most released prisoners fail without the proper resources in place. Reentry programs reduce recidivism. A criminal record can be a significant barrier to employment, housing, financial assistance, and more, so we work to clear cannabis prisoners record, given that those acts are now legal. Collectively these programs help cannabis prisoners become "fully free." LPP started deploying their programming in California and have begun scaling their programs into other marijuana adult-use states such as Michigan, Colorado, and Illinois as well as medical-use states such as Maryland and Ohio. GSO and LPP are very excited about the opportunity of bringing these programs to the first fully recreational market on the east coast, Massachusetts. As economic empowerment applicants, the founders and team at GSO are attuned to the needs of the community, and particularly those community members who have been most impacted by the war on drugs and prohibition. GSO has recognized the need on the east coast and looks forward to providing some of the programming LPP provides, including expungement and record sealing clinics, as well as reentry programs.

Compliance with Zoning and with Criteria Specific to Special Permit

GreenSoul Organics intends to meet the zoning and special permit specific requirements as outlined below as set forth in Section 10.43 of the zoning ordinance, Section 11.803 Cannabis Retail Stores, and Section 11.804 Application Requirements.

- GSO has submitted a traffic study prepared by Greater Boston Survey and Engineering in Section 7 of our Special Permit Application to ensure we will not have a negative impact on traffic in the City of Cambridge. GSO Pursuant to Article 6.000, the minimum off-street parking for our use in the Business B (BB) district is one (1) space per 1,800 square feet. GreenSoul Organics respectfully requests a waiver from the Traffic, Parking and Transportation Department (TPT). GSO is requesting a Special Permit to utilize 1,365 square feet of an existing building.
- GreenSoul Organics acknowledges the City's requirement for a Sewer Service Infrastructure Narrative detailing the anticipated impact of the project on the City's sanitary, stormwater, and combined sewer infrastructure. GSO respectfully requests a waiver for this requirement. GSO will not adjust, modify, or increase the sanitary, stormwater, or combined sewer infrastructure. We will utilize less than the tenant that currently occupies the building.
- GreenSoul Organics acknowledges the City's requirements for a Water Service Infrastructure Narrative detailing the anticipated impact of the project on the City's water delivery infrastructure and supply. GSO respectfully requests a waiver for this requirement. GSO will have less of an impact on the City's water delivery and supply and will not have to adjust, modify, or increase the infrastructure. Water usage will only consist of service for the restroom and service for the breakroom, i.e. sink and refrigerator. We will utilize less water than the current tenant (a hair salon) that occupies the building.
- GSO would like to request the LEED Specialist consider the proposed retail space is located within an existing 4-story mixed-use building dating from 1888. This building wasn't built to modern-day LEED standards. GSO proposes the following to meet the requirements of Section 22.20 to the best of our ability:
 - Our interior renovation will use sustainable materials within the space, sourced locally.
 - GSO proposes new energy-efficient storefront glazing that will improve energy efficiency while cleaning up a dated existing storefront.
 - All interior lighting will be LED, energy-efficient bulbs and will be energy star rated.

In summary, the renovated retail space will try and meet as many LEED Silver credits as possible while maintaining the existing character and aesthetic of the existing building.

Community Outreach Meeting

GreenSoul Organics held a Community Outreach Meeting on Wednesday, November 20, 2019 from 5:30 PM - 7:30 PM. The meeting was held at Tavern 730 located at 730 Massachusetts Avenue, Cambridge, MA 02446. A presentation was given regarding the proposed project which included time for any neighbor or abutters question and answers.

The following topics were discussed at the meeting:

- Our Team
- Our proposed project; including location and proposed use
- Our schedule
- Security
- Community impact

Questions from neighbors and abutters consisted of the following:

- When are you hiring?
- What are your hours of operation?

GSO received positive feedback regarding the location, use, and proposed changes to the existing building. There were no identifiable concerns or issues by neighbors or abutters at our Community Outreach Meeting.

Special Permit Criteria

11.803.1 Cannabis Retail Stores

- a.) Cannabis Retail Stores shall be allowed only by Planning Board Special Permit within the following districts: Business A (BA), Business A-1 (BA-1), Business A-2 (BA-2), Business A-3 (BA- 3), Business B (BB), Business B-1 (BB-1), Business B-2 (BB-2), Business C (BC), Industry A-1 (IA-1), Industry B (IB), Industry B-1 (IB-1), and Industry B-2 (IB-2) districts, and special districts and overlay districts whose use regulations are based on those of any of the aforementioned districts, subject to any limitations set forth in the regulations of those districts. In the Business A-1 district, only applicants that have been designed as Economic Empowerment Applicants or certified as eligible to participate in the Social Equity Program by the Massachusetts Cannabis Control Commission may be permitted and it shall be made a condition of the special permit that such designation or eligibility shall be maintained.

Response: GreenSoul Organics is proposing an adult-use marijuana retailer facility located at 759 Massachusetts Avenue, Cambridge, MA. 759 Massachusetts Avenue is located in the Business B (BB) District and requires a Special Permit to allow a Marijuana Retailer use per Section 11.800, *et seq.* GreenSoul Organics meets all requirements per Section 11.800. GSO is an approved Economic Empowerment Applicant. Please see Section 9, the notice of acceptance from the Cannabis Control Commission.

- b.) A Cannabis Retail Store shall not be permitted within one thousand and eight hundred (1,800) feet of another Cannabis Retail Store, except if the applicant has been designated as an Economic Empowerment Applicant or certified as eligible to participate in the Social Equity Program by the Massachusetts Cannabis Control Commission and it is made a condition of the special permit that such designation or eligibility shall be maintained.

Response: GreenSoul Organics, LLC (GSO) is an Economic Empowerment Applicant and therefore is compliant with 11.803.1 (b). Revolutionary Clinics, a Medical only MTC is located within 1,800 feet at 541 Massachusetts Avenue and a proposed dispensary Yamba Harvest is located within 1,800 feet at 580 Massachusetts Avenue. Please refer to Section 13, specifically our Locus/Context Plan and our Expanded Locus Plan.

- c.) All products offered to consumers shall be pre-packaged off-site, and no packaging or repackaging of cannabis or marijuana products shall take place on the premises of a Cannabis Retail Store unless it also meets the requirements for a Cannabis Production Facility.

Response: GSO will offer products to consumers that will be pre-packaged off-site, and no packaging or repacking of cannabis or marijuana products will take place on the premises.

11.803.2

- a.) Cannabis Production Facilities shall be allowed only by Planning Board Special Permit in the Industry B-2 (IB-2) district, provided that the establishment is not greater than 10,000 square feet in Gross Floor Area.

Response: GreenSoul Organics is not proposing a production facility in Cambridge, MA. GSO is applying for an Adult-use marijuana retail license in the City of Cambridge, Massachusetts.

11.803.3 Buffer zones

- a.) A Cannabis Retail Store or Cannabis Production Facility shall not be permitted within 300 feet of a pre-existing public or private school providing education in kindergarten or any of grades one through 12, except where the Planning Board, in issuing a special permit, approves a reduced distance upon finding that the location will cause no substantial adverse impact due to site-specific factors or other mitigating efforts agreed to in writing by the permittee and made conditions of the special permit.

Response: GSO is not located within 300 feet of a pre-existing public or private school providing education in kindergarten or any grades one through 12. Please refer to Section 13, specifically our Locus/Context Plan and our Expanded Locus Plan.

- b.) A Cannabis Retail Store or Cannabis Production Facility shall not be permitted within 300 feet of a pre-existing public children's playground, public youth athletic field, or public youth recreation facility, except where the Planning Board, in issuing a special permit, approves a reduced distance upon finding that the location will cause no substantial adverse impact due to site-specific factors or other mitigating efforts agreed to in writing by the permittee and made conditions of the special permit.

Response: GSO is not located within 300 feet of a pre-existing public children's playground, public youth athletic field, or public youth recreation facility. Please refer to Section 13, specifically our Locus/Context Plan and our Expanded Locus Plan.

11.804 Application Requirements

- a.) Description of Activities: a narrative providing information about the type and scale of all activities that will take place on the proposed site, including but not limited to cultivating and processing of Cannabis Products, on-site sales, off-site deliveries, distribution of educational materials, and other programs or activities.

Response: GreenSoul Organics, LLC proposes to renovate an Adult-use marijuana retail store that will provide cannabis products for non-medical use in the 1,365 square foot space located on the first floor of 759 Massachusetts Avenue, Cambridge. There will be no cultivation or processing of cannabis products at this location, nor will there be any off-site deliveries made to customers. All products will be pre-packaged off-site and there will be no packaging or repackaging of cannabis products at our 759 Massachusetts Avenue location. This location will be used only to purchase and transport marijuana products from Marijuana Establishments and to sell to customers or otherwise transfer these products to other Marijuana Establishments.

GSO has carefully considered the best operating model that will meet operational goals and mitigate any potential traffic issues within the community. The following information has been calculated based on code analysis.

Waiting Area:	11 People
Customer Retail Space:	11 People
Employee Space:	Maximum of 24 (different shifts)
Total Occupancy*:	Maximum of 46 (customers and employees) *GSO will keep the total at a Maximum of 38
Number of customers per day:	400-840 (Projected)
Maximum number of customers expected at one time:	22 customers

This retail space is currently occupied by Hair Collage, a hair salon. The structure at 759 Massachusetts Avenue is brick and wood framing construction typical of the day and age. GSO does not anticipate reconstructing the façade of the building other than adding an exit door in addition to the main entrance on Massachusetts Avenue. The interior of the first floor of 759 Massachusetts Avenue will undergo remodeling to repurpose the existing salon as a marijuana retail store. The retail store will be outfitted with a sophisticated security system that will include surveillance cameras, silent and audible alarms, motion detectors, and real-time remote monitors that can be readily accessed by the Cambridge Police Department (if requested).

Customers will only gain access to the GSO retail store after providing a valid photographic ID that is verified both electronically and manually by trained GSO Agents. All customers will be initially greeted by a registered GSO Agent located in the security vestibule inside the main entrance, and after verification, customers will be admitted to a secure waiting area where they will receive a brief orientation to the facility. Each GSO Agent will verify the customer ID again at the point of sale before selling any cannabis.

GSO is committed to being a good neighbor. We will establish Community norms. Community norms are a set of agreements informing customers that certain behaviors are acceptable and certain behaviors are not acceptable when doing business with GSO in our Cambridge location. GSO is rooted in community values, beliefs, and keeping our neighbor's interests a top priority. GSO knows that establishing norms creates a reciprocal relationship between the marijuana community and the Cambridge community.

Each customer will be required to execute a Community Norms Agreement before purchasing products from GSO. All GreenSoul Organics, LLC Agents will be trained to provide important information to all customers during this one-on-one interaction, specifically regarding the safe use of cannabis, and properly disposing of cannabis packaging and product.

A registered Marijuana Agent will then escort the customer to the display pedestal from which the customer will be able to make their selection. Products displayed will include cannabis flowers, concentrates, and marijuana-infused products. The customer's order will be placed on a handheld device by the registered Marijuana Agent to ensure consumer confidentiality. Then the customer will move to the fulfillment/point-of-sale area where payments will be processed, and the product will be sealed in an opaque,

tamper-resistant or childproof package. GSO's commitment to preventing product attraction to children will be strengthened by utilizing exit bags that will also contain printed educational materials for customers.

GSO customers will be required to exit the facility immediately after their order has been filled and payment has been accepted. The customer will exit through the entrance of the building and will not be allowed to loiter on, near, or around the premises. It is against Massachusetts law to consume any products on the premises. Any violation of the Community Norms Agreement will result in the customer being barred from this facility.

Please refer to Section 13, specifically Site Plan/Logistics, Proposed Dispensary Floor Plan, Proposed Security Plan, and Interior Perspectives.

Security Systems Summary

GreenSoul Organics, LLC has retained American Alarm, one of the leading security consultants in the security and marijuana industry. American Alarm has worked with GSO to engineer, review logistics, and provide security layouts. Please see Section 13, specifically our Proposed Security Plan. GSO has met with the Cambridge Police Department; Police Commissioner Dr. Branville G. Bard, Jr. and Mr. Jack Albert, Superintendent Operations Division to review our proposed security plan and our security standard operating policy and procedure. All security measures will meet or exceed compliance with 105 CMR 725.110. The interior and exterior of the building will be outfitted with approximately 20 (twenty) high definition IR surveillance cameras that are connected to a secure video VLAN. Per the Cannabis Control Commission (CNB), all camera footage will be stored for a minimum of 90 days but GSO will commit to 120 days of storage. Silent and audible alarms will be added as another security layer via Access Control and Intrusion. Real-time remote monitors for Access Control and CCTV will be available 24 hours a day. Steel entry doors will be equipped with an electronic control access system and will be controlled by electric and electrical mechanical locks that create an audit trail. Staff access within the facility will be monitored by a keycard program that provides staggering levels of access to staff members. Only essential staff will be granted access to secure points within the facility, such as the vault and fulfillment area. Limited Access areas will be identified by visible signs. Only designated staff, law enforcement, and the CNB regulatory agents will be allowed access to Limited Access areas. The perimeter will be amply lit, in compliance with the recommended standards of the Draft Outdoor Lighting Ordinance provided to the City Council by the City's Lighting Task Force, and surveillance signs will be posted.

Law Enforcement and Public Safety Official Communication

GreenSoul Organics, LLC will be in constant contact with the Cambridge Police Department in the development and implementation of its security systems. GSO will have the Police Department tour the facility through multiple stages of design and construction. GSO will seek to maintain direct communication and an open-door policy with regards to all state and local law enforcement, public safety, and public health agencies, including, but not limited to the CNB. GSO will inform local police, City officials, and the CNB of any incidents regarding security and/or public safety issues via incident reports, phone calls, and emails when appropriate.

On-Site Security Personnel

Upon GSO's meeting with the Police Commissioner and the Superintendent, it was suggested and recommended GSO have uniformed officers as additional security out in

the front of the building during the first month of business. GSO will work with the City of Cambridge to hire uniformed officers during the first month of business as requested. Per the Police Commissioner and the Superintendent, the duties of the police officers would be to provide additional surveillance of the facility entrance and exit and perimeter inspections. GSO will provide an opening day plan to the Cambridge Police department for prior approval. The Police department would like GSO to submit the opening day plan one month before our scheduled opening day. Our security system (pre-approved by the Cambridge Police Department and the Cannabis Control Commission) is supported by a comprehensive electronic security system comprised of cameras, motion detectors, and duress alarms, as well as comprehensive emergency procedures and employee training. GreenSoul Organics, LLC will ensure that its Agents inform all customers that loitering is not tolerated, nor is littering. All identified violations of the Community Norms Agreement will be immediately reported.

GSO did submit a security policy and procedure to the Cambridge Police Department for review and comment. Due to the privacy and sensitivity of our security system, GSO respectfully requests the Planning Board requests specific information and the specific information requested is not made public.

Inventory Tracking and Control System

A comprehensive inventory tracking and control system is essential to the security of our facility and the prevention of diversion. Our inventory and tracking system will allow GreenSoul Organics, LLC to maintain awareness and control over where products are at any given stage in the distribution process. METRC, the Massachusetts state-approved seed-to-sale tracking system will be utilized. METRC enables Companies to report to the Cannabis Control Commission all of its regulatory requirements regarding inventory. GSO has submitted its Inventory Control policy and procedure to the CNB for its approval. As an added source of inventory tracking, GreenSoul Organics, LLC will utilize a fully integrated enterprise application software package that includes inventory management, cash management, and employee tracking, through a separate Point-of-Sale system. Our in-house Point-of-Sale system will communicate with METRC to ensure accuracy and accountability. GSO will do a physical inventory of products every day and as necessary, multiple times throughout the day to prevent diversion and remain compliant.

Employee Training

GSO anticipates a maximum of 24 employees when fully operational, working different shifts. Staff will consist of a General Manager, Security Personnel, and Sales staff. GreenSoul Organics, LLC will commit as a certified Economic Empowerment Applicant to hire employees that reside in areas of disproportionate impact and establish a percentage of employees that have had drug-related incarcerations. As previously stated above, GSO will work with the Last Prisoner Project to maintain our hiring commitment.

The CNB requires all staff to be aged 21 or over and each employee must become a Registered Marijuana Agent; meaning each employee must go through a background check. The background check will be renewed annually.

GSO strives to provide the best customer experience. We will ensure our Agents receive the required hours of training established by the CNB but we will also offer on the job training to help our employees progress in their career path. Training will include Responsible Vendor Training, Active shooter training, Sexual Harassment training, Diversion Detection Techniques, as well as many other required and non-required

training.

Hours of Operations

GreenSoul Organics, LLC anticipates operating a Cannabis Retail Store between the hours of 9:00 AM –10:00 PM, Monday through Friday. Saturday hours would be between 10:00 AM – 11:00 PM, and Sunday hours would be between 11:00 AM – 8:00 PM, subject to the approval of the Planning Board.

Trash Management

Any trash containing marijuana or marijuana-infused products is required to be stored securely on-site deemed as marijuana waste. GSO anticipates a small amount of marijuana waste as we are operating as a retail facility only. GSO anticipates returned product, and/or damaged product to be the only type of marijuana waste. GSO will schedule a pickup from the wholesaler where the products were purchased and the wholesaler will pick up the waste and safely destroy it at their facility. A manifest in METRC will document any marijuana waste and it will be tracked as marijuana waste destroyed. A minimal amount of business-related waste will be generated from the facility and disposed of by commercial trash pickup. Trash pickup will take place in the rear of the building, in the existing loading location.

Deliveries

Product deliveries will occur between two and three times each week in unmarked vehicles in the existing loading location in the rear of the building. There will be no advertising, markings, or branding indicating that the vehicle is being used to transport cannabis per the Cannabis Control Commission. Routes and times used for the transportation of cannabis and marijuana-infused products are randomized. GSO will not apply for or have a license for a vehicle providing any marijuana transportation. All deliveries and product transportation will be handled by our distributors.

A cash pickup will take place two to three times each week by a Cannabis Control Commission registered transporter or by our bank. If additional cash pickups are needed three to four times per week, GSO will arrange the pickup with the appropriate transporter. GSO will ensure that at no time a transport vehicle will be stopped or parked on Massachusetts Avenue, or on any other public street, in a way that blocks emergency vehicle access or unreasonably impedes the flow of vehicle, pedestrian or bicycle travel. Please see Section 13 and our response to 11.804 (e) for additional details.

Payment Processing and Cash Handling

GreenSoul Organics, LLC is currently in contact with a banking establishment and will have an account with an approved banking establishment before opening our store. GSO like many other marijuana establishments will accept cash and debit cards. The majority of dispensaries in Massachusetts are processing debit card transactions more than receiving cash for transactions. Like any retail business, GreenSoul Organics will employ a sophisticated cash-handling procedure that will include comprehensive employee training, strict policies, and procedures for how cash is counted, handled, collected, recorded, and stored. Cash collection will occur on a timely basis to ensure that no more cash than is necessary for the ordinary course of business is kept on site. GSO will set and maintain a low cash threshold (amount) during hours of operation or when the establishment is closed.

The Cannabis Control Commission (CNB) will review and approve our Cash Handling and Waste Standard Operating Procedures before approving our license to operate.

Traffic and Parking

GreenSoul Organics, LLC does not propose adding any off-street parking and seeks a small business exemption. Pursuant to Article 6.000, the minimum off-street parking for this use in the Business B (BB) district is 1 space per 1,800 square feet, and GSO is requesting a special permit for 1,365sf at 759 Massachusetts Avenue. Per Article 6.000, 6.35.1, and Section 6.32.1, *Small Business*, parking, and loading requirements shall be waived for any nonresidential use in a business district if such use would require four (4) or fewer spaces. GSO recognizes the importance of minimizing traffic in the City and will put forth its best efforts to encourage customers to take public transportation. GSO has provided in Section 7 a Transportation Logistics Plan Memorandum prepared by Greater Boston Survey and Engineering.

The proposed facility is serviced by public transportation, on-street metered parking, multiple parking lots, Zipcar locations, and Bluebike stations within walking distance. GSO has included in our design a monitoring screen inside the retail space for customers and employees that will display public transportation schedules. The addition to this design has been included in our proposed layout shown in Section 13. Based upon feedback from the CCDD, we have addressed concerns regarding queuing and have provided adequate space inside our retail facility to accommodate any potential lines that may form. GSO encourages all customers and employees to take advantage of public transportation. GSO has chosen this site in particular because of the abundance of public transportation offered to its customers and employees.

Parking Lots:

- Cambridge Municipal Lot 9 (2-minute walk),
- Central Square Parking Lot (3-minute walk),
- Cambridge Municipal Lot 6 (4-minute walk)
- Green Street Parking Lot (4-minute walk)
- Green Street Garage (7-minute walk)

Zipcar locations:

- Western Avenue: 3-minute walk
- 872 Massachusetts Avenue: 4-minute walk
- 55 Bishop Allen Drive: 7-minute walk
- 55 Franklin Street: 10-minute walk
- NW86 Pacific Street: 14-minute walk

Bluebike locations:

- Lafayette Square Bluebike station: 7-minute walk
- Harvard University housing Bluebike station: 13-minute walk

Also, this site is approximately 400 feet, a 2-minute walk from the Central Square MBTA Red Line station, and 7 MBTA bus lines connect in Central Square.

GreenSoul Organics, LLC has developed operational procedures to ensure that customer visits are short and will not result in queuing or other congestion to enter or exit the facility. GSO has designed our facility with ample area for queuing inside our retail space, giving our customers a pleasing experience. Any Operational procedures that will need to be adjusted, will be adjusted immediately to ensure optimal function and pedestrian traffic of the facility.

GreenSoul Organics, LLC will undertake the following proactive traffic mitigation efforts:

- Provide 60% MBTA T-Pass subsidies, up to the federal fringe benefit, to all employees, with a pro-rated incentive for any part-time employees.
- Provide customers with information regarding transportation options to access the facility.
- Provide and maintain information on our website and other distributed material on how to access the facility by all modes of transportation, with an emphasis on public transportation.

Employee Transportation

The proposed dispensary will provide dedicated bike parking within the back of the house space of the dispensary. These employee bikes will be shielded from the weather and are easily accessible off the rear alley within the loading zone. In addition to this area, the existing sidewalk in front of the building has 5 racks and can handle 10 bicycles at a given time. In addition to these bike racks, there are 3 Bluebike stations within 300' of the proposed dispensary.

Customer Education

Education is a top priority for GreenSoul Organics, LLC, and will be a central theme evident throughout its Cannabis Retail Store. Educational support will be provided on a one-to-one basis beginning with the first customer visit. GreenSoul Organics, LLC employees will be trained to listen attentively and provide auditory and visual educational instructions. Our facility is designed to have a one-to-one personalized customer experience. Agents will have handheld devices to discuss products with customers, to answer questions, and to help customers select products they are seeking.

All customers will be given printed as well as online information on cannabis, the history of cannabis, cannabis safety, our cannabis products including but not limited to cannabis strains and the various effects cannabis can have on individuals.

Distribution of Educational Materials will be as follows:

- Visual Materials: GreenSoul Organics, LLC will display a variety of educational materials. Flyers, pamphlets, and other materials will be available in the waiting/education area as well as throughout the sales floor.
- Auditory Reminders: GreenSoul Organics, LLC employees will receive ample training about effective educational tools that can be used during transactions. Employees will educate customers before and at the point of sale about how to safely store, consume, and transport their products.
- Takeaway Material: Product safety guides and general informational material

will be placed in every exit bag to ensure customers have access to safety materials when they intend to utilize the product.

- b.) Context Map: A map identifying, at a minimum, the location of the proposed establishment, the locations of all other Cannabis Uses in the vicinity, the locations of all public or private schools providing education in kindergarten or any grades one through 12, and the locations of all children's playgrounds, youth athletic fields, or other youth recreation facilities, with measured distances provided to demonstrate whether the location complies with the standards of Section 11.803 above.

Response: The Context Maps identify a 300-foot, 500-foot, and 1,800-foot buffer zone around 759 Massachusetts Avenue. Please see Section 13, specifically the Locus/Context Plan and Expanded Locus Plan identifying a 300-foot buffer zone around 759 Massachusetts Avenue. The site is not located within 300 feet of public or private schools providing education in kindergarten or any grades one through 12, and the locations of all children's playgrounds, youth athletic fields, or other youth recreation facilities.

Please see Section 13, specifically the Locus/Context Plan and Expanded Locus Plan identifying a 300-foot, 500-foot, and 1,800-foot buffer zone around 759 Massachusetts Avenue. As previously stated, GreenSoul Organics, LLC is a certified Economic Empowerment Applicant and is therefore exempt from the 1,800-foot buffer between Cannabis Retail Stores per 11.803.1 (b). Revolutionary Clinics is located at 541 Massachusetts Avenue which is 1,055 feet from our proposed Adult-use retail facility.

- c.) Site Plan: A plan or plans depicting all existing and proposed development on the property, including the dimensions of the building, the detailed layout of automobile and bicycle parking, the location of pedestrian, bicycle and vehicular points of access and egress, the location and design of all loading, refuse and service facilities, the location, type and direction of all outdoor lighting on the site, and any landscape design.

Response: Please see Section 13 for our Proposed Dispensary Floor Plan. Section 13 includes our proposed elevations, the detailed layouts of the interior space, employee bicycle storage, points of access and egress, the location and design of all loading, delivery and receiving, the existing and to remain sidewalk, existing and to remain trees, the basement level depicting the vault, employee breakroom, managers office, security/IT room, employee lockers and restroom, and storage.

- d.) Building Elevations and Signage: Architectural drawings of all exterior building facades and all proposed signage, specifying materials, and colors to be used. Perspective drawings and illustrations of the site from public ways and abutting properties are recommended but not required.

Response: Please see in Section 13, the enclosed existing building rendering depicting the current building signage and the proposed exterior building façade with signage. As previously mentioned, GSO will only add a door to the façade.

- e.) Logistics Plan: A plan identifying the on-site or off-site locations where deliveries and loading functions will take place and a narrative describing how deliveries to the site, loading, and other service functions will be conducted, as well as a plan and narrative identifying the transportation options for customers and employees, including public transportation services, on-site and off-site parking facilities, and bicycle facilities.

Response: Please see Section 13 regarding our loading location for all deliveries and loading functions. GSO has also provided in Section 7 our Transportation Logistics Plan Memorandum prepared by Greater Boston Survey and Engineering. As previously mentioned above in 11.804 (a) our customer and employee parking will be the existing street parking. As explained in 11.804 GSO will provide customers and employees direction to use public transportation.

f.) License or Registration Materials: Copies of all materials submitted to applicable state and local agencies for the purpose of licensing and/or registration, and any certification or license issued by any such agency, excluding any information required by law to be kept confidential.

Response: Please see Section 10, the Cannabis Control Commission Adult Use Marijuana Retailer application and Section 9, the Cannabis Control Commission License Number: EE202211, granted to GreenSoul Organics, LLC on May 22, 2018.

In Section 11, GSO has attached a copy of the GreenSoul Organics City of Cambridge Cannabis Business Permit Number: 60238.

g.) Host Community Agreement: A narrative describing progress that has been made at the time of application toward establishing a host community agreement with the City of Cambridge.

Response: GreenSoul Organics, LLC has initiated communications with the City Manager and following Special Permit approval, GreenSoul Organics will finalize the HCA with the City Manager's office.

Special Permit Criteria

11.805 Special Permit Criteria Special Permit Criteria. In granting a special permit for a Cannabis Retail Store or Cannabis Production Facility, in addition to the general criteria for issuance of a special permit as set forth in Section 10.43 of this Zoning Ordinance, the Planning Board shall find that the following criteria are met:

a.) The site is designed such that it provides convenient, safe, and secure access and egress for customers and employees arriving to and leaving from the site using all modes of transportation, including drivers, pedestrians, bicyclists, and public transportation users.

Response: GreenSoul Organics, LLC does not propose adding any off-street parking and seeks a small business exemption. Pursuant to Article 6.000, the minimum off-street parking for this use in the Business B (BB) district is 1 space per 1,800 square feet, and GSO is requesting a special permit for 1,365sf at 759 Massachusetts Avenue. Per Article 6.000, 6.35.1, and Section 6.32.1, Small Business, parking, and loading requirements shall be waived for any nonresidential use in a business district if such use would require four (4) or fewer spaces.

The building is serviced by public transportation, on-street metered parking, multiple parking lots, Zipcar locations, and Bluebike stations within walking distance.

Parking Lots:

- Cambridge Municipal Lot 9 (2-minute walk),
- Central Square Parking Lot (3-minute walk),
- Cambridge Municipal Lot 6 (4-minute walk)
- Green Street Parking Log (4-minute walk)
- Green Street Garage (7-minute walk)

Zipcar locations:

- Western Avenue: 3-minute walk
- 872 Massachusetts Avenue: 4-minute walk
- 55 Bishop Allen Drive: 7-minute walk
- 55 Franklin Street: 10-minute walk
- NW86 Pacific Street: 14-minute walk

Bluebike locations:

- Lafayette Square Bluebike station: 7-minute walk
- Harvard University housing Bluebike station: 13-minute walk

Also, this site is approximately 400 feet, a 2-minute walk from the Central Square MBTA Red Line station, and 7 MBTA bus lines connect in Central Square. GreenSoul Organics, LLC has taken great care to develop operational procedures to ensure that customer visits are short and will not result in queuing or other congestion to enter or exit the facility. Operational procedures will be adjusted as needed to ensure optimal function of the facility. GreenSoul Organics, LLC will undertake the following proactive traffic mitigation efforts:

- Provide 60% MBTA T-Pass subsidies, up to the federal fringe benefit, to all employees, with a pro-rated incentive for any part-time employees.
- Provide customers with information regarding transportation options to access the facility.
- Provide and maintain information on our website and other distributed material on how to access the facility by all modes of transportation, with an emphasis on public transportation.

Please see Section 13, specifically the Locus/Context Plan and the Expanded Locus Plan. GSO has also provided in Section 7 the Transportation Logistics Plan Memorandum prepared by Greater Boston Survey and Engineering.

- b.) On-site loading, refuse and service areas are designed to be secure and shielded from abutting uses.

Response: The on-site loading is located behind the building. The product will be physically carried into the store in a non-descript plastic bin through the rear entrance. Other than parking in the designated loading zone and walking into the rear entrance, all loading activity occurs within the facility itself. Per the Cannabis Control Commission, there are strict safety requirements that GSO will utilize to ensure the drivers, delivery Agents, GSO Agents, and the community will remain safe. The current refuse area is located at the corner of Inman Street and Massachusetts Avenue behind the building. The existing and current refuse and on-site loading areas in the rear of the property are shielded from abutting uses. No marijuana product will be visible at any time. As stated above, any marijuana waste will be stored inside the vault in the facility until GSO schedules a pick-up and it will be returned for waste disposal. All dumpsters that GSO will utilize will be inspected by the Cannabis Control Commission and will be locked at all times when not being used.

- c.) The building and site have been designed to be compatible with other buildings in the area and to mitigate any negative aesthetic impacts that might result from required security measures and restrictions on visibility into the building's interior.

Response: GreenSoul Organics will invest in our local community to ensure we include and utilize local resources. We will interact with local artists to design a marijuana retail store with design elements that will reflect the rich culture and history of Cambridge. Please see Section 6, our Artist Collaboration Agreement with Street Theory/M27 Design, LLC. Street Theory is an award-winning creative agency that activates communities, spaces, and global brands through street-art. Street Theory is an artist-owned agency, founded by Liza Quinonez and renowned graffiti/street-artist Marka27. GSO and Street Theory will collaborate on the development of artwork and provide seasonal rotating displays of artwork by local reputable artists. GSO believes that collaborating with Street Theory will complement and improve the aesthetics of the surrounding neighborhood. Our

design will shield from the public view the entirety of the sales area and regulated material, while also engaging the community with art displays that will be visible through the existing clear glass windows on the front facade.

The proposed lighting and security measures will be sensitively placed, in compliance with the recommended standards of the Draft Outdoor Lighting Ordinance provided to the City Council by the City's Lighting Task Force, to provide a safe yet unobtrusive means of surveillance for the appropriate and most sensitive portions of the building. The design and use of the proposed facility will be consistent with and maintain the form and character desirable for the Central Square neighborhood. GSO will not be adding any additional exterior lighting to the façade at this time. We hope that as we create revenue, we can add some pleasing exterior lighting per the CCDD's recommendation. Please refer to Section 13 for Façade Elevations and the Interior Perspective.

- d.) In retail areas, the location and design of the Cannabis Use will not detract from the sense of activity with opaque, unwelcoming façades at the ground floor. Where interior activities must be screened from public view, such areas should be screened by transparent, publicly accessible active business uses where possible. Opaque façades should be minimized, and where they are necessary they should include changing public art displays or other measures to provide visual interest to the public.

Response: GreenSoul Organics, LLC recognizes the need to create a street façade that engages the sidewalk, street, and pedestrian corridor. As mentioned above, GSO proposes to create a secure waiting/education area immediately inside the main entrance on Massachusetts Avenue that will not be visible through the existing clear glass windows. The waiting/education will display local artwork through our collaboration with Street Theory that celebrates the historical significance and many accomplishments of the minority community in Cambridge.

- e.) If the proposed Cannabis Retail Store or Cannabis Production Facility is not proposed to include a Medical Marijuana Treatment Center, it will nevertheless provide programs to assist qualifying patients within the city or neighborhood who are registered through the Massachusetts Medical Use of Marijuana Program in obtaining services under that program.

Response: GreenSoul Organics is applying for an Adult Use Marijuana Retailer application. GreenSoul Organics, LLC will assist qualifying patients who are registered through the Massachusetts Medical Use of Marijuana Program to the best of its ability. Any adult age 21 or over will have the ability to purchase Adult Use Marijuana at our facility located at 759 Massachusetts Avenue.

Special Permit Criteria 10.43

Pursuant to section 10.43 of the Cambridge Zoning Ordinance, special permits will normally be granted where provisions of this ordinance are met, except when particulars of the location or use, not generally true of the district or of the uses permitted in it, would cause granting of such permit to be to the detriment of the public good because:

- a.) It appears that requirement of this Ordinance cannot or will not be met.

Response: With the requested Special Permit, the Project will meet all requirements of the above referenced City of Cambridge zoning ordinance.

- b.) Traffic generated and or patterns of access or egress would cause congestion, hazard, or substantial change in established neighborhood character.

Response: GreenSoul Organics, LLC respectfully submits that its proposed use of this property will not disturb the existing right of way, pedestrian access, and will not cause a serious

hazard to vehicle or pedestrian traffic. Traffic generated and patterns of access or egress will not cause congestion, hazard, or substantial change in the established neighborhood character. Central Square is a vibrant, bustling neighborhood that has historically been the center of Cambridge's cultural, commercial, and social services industry. Although the neighborhood has been the site of some recent redevelopment, GSO's proposed Cannabis Retail Store will be designed and operated to be consistent with both the established and emerging character of the neighborhood. The entire retail space will occupy 1,365 square feet, with a portion of that dedicated to displaying artwork that celebrates the historical accomplishments of the minority community in Cambridge and highlights the diversity of the neighborhood. The intake area will allow customers to enter the facility and will prevent any loitering outside the facility (which will be strongly discouraged).

Additionally, GSO will promote customers to utilize public transportation, ride-sharing, and bicycling. As stated in 11.804 we will strongly advise our customers and employees to take public transportation.

Zipcar locations:

- Western Avenue: 3-minute walk
- 872 Massachusetts Avenue: 4-minute walk
- 55 Bishop Allen Drive: 7-minute walk
- 55 Franklin Street: 10-minute walk
- NW86 Pacific Street: 14-minute walk

Bluebike locations:

- Lafayette Square Bluebike station: 7-minute walk
- Harvard University housing Bluebike station: 13-minute walk

GSO is approximately 400 feet, a 2-minute walk from the Central Square MBTA Red Line station, and 7 MBTA bus lines connect in Central Square. As mentioned above, GSO will undertake the following proactive traffic mitigation efforts:

- Provide 60% MBTA T-Pass subsidies, up to the federal fringe benefit, to all employees, with a pro-rated incentive for any part-time employees.
- Provide customers with information regarding transportation options to access the facility.
- Provide and maintain information on our website and other distributed material on how to access the facility by all modes of transportation, with an emphasis on public transportation.

Please see Section 13, and Section 7 for detailed information regarding the location of public transportation offered to our retail facility.

- c.) The continued operation of or the development of adjacent uses as permitted in the Zoning Ordinance would be adversely affected by the nature of the proposed use, or (d);

Response: The proposed use for this location is adult-use retail only, with an emphasis on customer education. GreenSoul Organics, LLC is a locally- owned cannabis company that has been certified as an Economic Empowerment Applicant. GSO is committed to setting the standard for operational excellence, not only within the Equity Programs established by the CNB but within the entire cannabis industry. Accordingly, there are no applicable adjacent uses that will be developed or adversely affect the nature of the proposed use.

There will be no packaging, repackaging, cultivation or processing activities of any type occurring at this site.

- d.) Nuisance or hazard would be created to the detriment of the health, safety and/or welfare of the occupant of the proposed use or the citizens of the city.

Response: In November of 2016, nearly 80% of Cambridge voters approved Question 4, the ballot initiative to legalize the adult use of marijuana. In July of 2017, Chapter 55 of the Acts of 2017, *An Act to Ensure Safe Access to Marijuana*, was adopted with requirements that people from communities that have been disproportionately harmed by marijuana law enforcement are included in the newly legal marijuana industry. These programs were developed in responses to evidence which demonstrates that certain populations, particularly Black and Latinos, have been disproportionately impacted by high rates of arrest and incarceration for marijuana and other drug crimes as a result of state and federal drug policy. Criminalization has had long-term ill effects, not only on the individuals arrested and incarcerated but also on their families and communities. Although Cambridge was not one of the 29 cities designated as an area of disproportionate impact, the city has established a regulatory scheme that prioritizes Economic Empowerment Applicants such as the GreenSoul Organics, LLC. Moreover, since Cambridge first adopted its zoning in 2013, a vast majority of all city officials, department heads, community activists, and elected officials have devoted an extraordinary amount of time, effort, and thought to develop standards to apply to this emerging industry in Cambridge. Approving GSO for a special permit will reduce the detriment of criminalization, and incarceration so that customers have safe access to marijuana products.

Through the Cannabis Control Commission (CNB) regulations, GSO will work closely with the CNB to ensure no nuisances or hazards will negatively affect the health, safety, or welfare of occupants, neighbors, customers, employees, or the City of Cambridge. The community will be able to contact the owners of GSO if they have any complaints and the complaints will be addressed immediately. GSO will be a good neighbor and will cooperate with other businesses and City officials to ensure our retail facility brings favorable business to Cambridge. There will not be any consumption on site of marijuana products. Loitering will not be tolerated. There will be no noxious odors, as this is a retail facility, and GSO will not tolerate littering.

- e.) For other reasons, the proposed use would not impair the Integrity of the district or adjoining District, or otherwise derogate from the intent and purpose of this Ordinance, and;

Response: The proposed GreenSoul Organics, LLC Cannabis Retail Store will not impair the integrity of the District or the adjoining District because it is located within the designated zoning area, Business B (BB), and its use will not be apparent to the public. Additionally, the design plan allows patrons to quickly and safely enter the facility and remain in an intake area until they are assisted by a registered Marijuana Agent. As previously mentioned, our retail facility will also provide an opportunity to display artwork that will celebrate the historical accomplishments of the minority community in Cambridge. These design elements will enhance the pedestrian corridor along Massachusetts Avenue by offering a dynamic interaction with the streetscape in Central Square. Finally, the overall security plan provides a proven approach to safe and efficient entry and egress and establishes significant deterrent measures to prevent any noticeable nuisances associated with this emerging industry from occurring.

- f.) The new use or building construction is consistent with the Urban Design Objectives set forth in Section 19.30

Response: GreenSoul Organics, LLC will invest time and resources to design a marijuana retail store

with design elements that will reflect the rich culture and history of Cambridge. GSO's retail facility will complement and improve the aesthetics of the surrounding neighborhood. The design will shield from the public view the entirety of the sales area and regulated material, while also engaging the community with art displays that will be visible through the existing clear glass windows on the front facade.

The proposed lighting and security measures will be sensitively placed, in compliance with the recommended standards of the Draft Outdoor Lighting Ordinance provided to the City Council by the City's Lighting Task Force, to provide a safe yet unobtrusive means of surveillance for the appropriate and most sensitive portions of the building and building sites. The design and use of the proposed facility will be consistent with and maintain the form and character desirable for the Central Square neighborhood.

e. liza@street-theory.com

Agency Overview

Street Theory (www.street-theory.com) is an award-winning creative agency that activates communities, spaces, and global brands through street-art, experiential marketing, cultural placemaking, branding and design. We are an artist-owned agency, founded by **Liza Quiñonez** and renowned graffiti/ street-artist **Marka27**. With over 20 years of experience in large scale public art production, artist management, art and design direction, exhibitions and special events, we use our expertise to implement and execute our Client's goals at the highest levels of creative expression and strategic planning in the areas of lifestyle, hospitality, retail, real estate, urban planning and community development. We pride ourselves in authentic experiences, bringing art and street culture into all aspects of life and work-- from curating and producing events to empowering communities and working with some of today's most talented and influential local and global artists.

Scope of Work & Project Components

PROJECT SCOPE OF WORK

Street Theory is excited to collaborate and consult with Greensoul Organics on the development of artwork for its Cambridge location, including:

- Mural Art direction and strategy with artist, Marka27, that articulates Greensoul's desired theme within the interior of the proposed dispensary
- Program development and consultation on a curated, seasonal rotating display of artwork by local reputable artists

Acceptance

Thank you for your time and the opportunity to present this Proposal. Client Name indicates acceptance of this Letter of Intent by signing this form below.

RE: Transportation Logistics Plan
Proposed Retail Dispensary – Green Soul Organics
759 Massachusetts Avenue
Cambridge, MA 02139

Greater Boston Survey and Engineering (GBSE) has completed a Transportation Logistics Plan in order to determine potential impacts associated with the proposed cannabis dispensary (Green Soul Organics) to be located at 759 Massachusetts Avenue in Cambridge, Massachusetts (hereafter referred to as “The Project”). The purpose of this memorandum is to identify available public transit options, evaluate parking supply/demand, evaluate loading/delivery areas and the impacts on nearby streets, sidewalks and surrounding neighborhoods, estimate traffic volumes expected to be generated by the proposed facility, and recommend a Transportation Demand Management (TDM) Plan for customers, employees, and delivery/loading activities, in order to minimize Project impacts. The general scope of this assessment is outlined in the City of Cambridge Transportation Logistics Plan Guidelines.

PROJECT DESCRIPTION

The proposed Project will consist of a 1,365 sf cannabis dispensary. The facility will be opened seven days a week from 9:00 AM to 10:00 PM Monday through Friday, 10:00 AM to 11:00 PM Saturday and, 11:00 AM to 8:00 PM Sunday. The dispensary will have seven (4) display case registers with employees working in the crowd with handheld devices to expedite ordering and purchasing.

INTRODUCTION

As part of this plan, a comprehensive field inventory of available public transit options, parking supply and demand, loading zone, pedestrian, and bicycle facilities within the study area was undertaken in December 2019, within 500-foot and quarter mile radius around the site. Figure 1 graphically depicts a survey of the inventory.

Pedestrian and Bicycle Facilities

The Project site is conveniently located in a pedestrian-friendly area and will be accessed by customers at the store front entrance onto Massachusetts Avenue. Within the study area, 6-ft wide sidewalks are provided along both sides of all streets with painted crosswalks provided at the intersections of Massachusetts Avenue and Inman Street as well as Massachusetts Avenue and Pleasant Street. In addition, dedicated bike lanes are provided along both sides of Massachusetts Avenue in proximity to the project location. Available public transit and bike facilities/stations are provided within less than a 5-minute walk. (See figure 1)

A BlueBike station is located across the street from the proposed dispensary (see Figure 1). This will allow employees to facilitate the use of bicycle transportation while limiting the need to store their bikes on-site.

Public Transportation Services

The Project site is conveniently located in close proximity to the MBTA Central Station. As such, a significant portion of employees and customers will utilize transportation to access the site. Public transportation services are provided within the study area by the Massachusetts Bay Transportation Authority (MBTA) for Bus and Subway service. Bus stop locations within the site vicinity are depicted on Figure 1. Within the study area, the MBTA operates the following bus and subway services:

**Table 1
MBTA BUS SERVICE SUMMARY**

<u>Route</u>	<u>Service</u>	<u>Stop Closest to Site</u>	<u>Distance From Site</u>	<u>Distance Walking</u>
1	Harvard – Dudley Via Massachusetts Ave	Massachusetts Ave at Pleasant	228 ft. north	1 minute
1	Harvard – Dudley Via Massachusetts Ave	Massachusetts Ave at Bigelow St	223 ft. north	1 minute
83	Rindge Ave – Central Square, Cambridge, MA	Prospect Street at Bishop Allen Drive	524 ft north	3 minutes
91	Sullivan – Central Square, Cambridge, MA	Prospect Street at Bishop Allen Drive	0.1 Miles south	3 minutes
70	Cedarwood – Central Square, Cambridge, MA	Western Ave at Green Street	524 ft south	3 Minutes
64	Oak Square – University Park or Kendal/MIT	Massachusetts Ave at Pearl Street	0.2 miles south	6 minutes
47	Central Square, Cambridge – Central Station	Massachusetts Ave at Pearl Street	0.2 miles south	6 minutes

MBTA SUBWAY SERVICE SUMMARY

<u>Line</u>	<u>Stop Closest to Site</u>	<u>Distance from Site</u>	<u>Distance Walking</u>	<u>Frequency</u>
MBTA Red Line Braintree/Alewife	Central	0.1 miles south	4 minutes	9-12 Minutes

Parking and Loading Availability

The Project proposes to use existing on and off-street public parking within short walking distance (10 mins.) to the project site. There are three (3) public parking lots (No. 6, 8 & No. 9) that have 114 pay-for parking spots. In addition, there is a 290-spot municipal garage (Green Street Garage) within walking distance to the project location. Finally, there is available on-street parking (e.g., metered 2-hour parking, 15-minute parking, etc.) in the vicinity of the site.

All loading deliveries will be handled utilizing an existing loading zone area on the public alley behind the project building off Inman Street. The Applicant will attempt to schedule delivery times to avoid undue congestion, although for security reasons required, the specific delivery times and dates will vary and will need to be kept confidential. The loading zone is expected to be utilized approximately twenty (20) times per week.

PROJECT-GENERATED TRAFFIC

The cannabis dispensary is predicted to generate approximately 124 vehicle trips (63 vehicles entering and 61 exiting) expected during the weekday evening peak-hour, and 96 vehicle trips (49 vehicles entering and 47 exiting) expected during the Saturday midday peak hour. It should be noted that up to 40 percent of the customers' peak hour trips will be transit, pedestrian and bicycle trips. It is important to note that these estimates are conservatively high and given the area's constrained parking supply and available public transportation, actual vehicle trip generation should be significantly less. See Table 3 for project project-generated traffic.

OPENING CONDITIONS OPERATIONS PLAN

Crowd and Customer Management Logistics

In anticipation of large crowds during the opening days and months, the following is being proposed:

- **Additional Staff:** There will be additional security/concierge specifically focused on managing the crowds both internally and on the street along Mass Ave. These additional staff members will serve as concierge and will not replace the required security and check in personnel as required by the CCC regulations.
- **Appointment Only:** For the initial first six months traffic will be intensely monitored and if deemed warranted the facility will operate under appointment only conditions. During the initial 6 months of operation there will be additional staff to monitor lines as concierge/security to maintain order in the public way. Queuing in the sidewalk will not be allowed. The total daily customer volume is anticipated as follows: The dispensary will have a maximum of 364 customers per day (13 hours per day x 4 customer per hour (per register x 7 registers). There will be a maximum of 14 customers in the facility at any one time because the average customer time in the dispensary will be approximately 15-20 minutes after which the customer leave and the next appointment will begin. This data is based on other cannabis dispensaries that have been in operation of similar size.
- **Crowd Management Software/Technology:** We will utilize Q-Less, an Appointment Scheduling and Queue Management System designed to allow customers to schedule an appointment via mobile phone or our website. With queue management software, customers are given a personal wait time forecast. Timely updates and notifications alert customers as they move to the front of the queue. Accurate wait times keep them in the loop so they're free to tend to other business, instead of waiting in line or a crowded lobby. The app will update customers via text messaging and then will notify the customer when it is their turn.
- **Coordinate with Cambridge Police:** In advance of its opening day GreenSoul will coordinate with the Central Square Sargent of the Cambridge Police to arrange for the appropriate detail, discuss any proposed logistics for crowd management and share any industry information the police may find useful.

TRANSPORTATION DEMAND MANAGEMENT (TDM)

Reducing the amount of traffic generation by the Project is an important component of the development. The goal of the TDM plan is to reduce the use of Single Occupant Vehicles by encouraging healthy transportation choices. The following measures will be implemented in an effort to reduce the number of vehicle trips generated:

- Provide MBTA T-Pass subsidies to all employees.
- Offer all employees Gold-Level Bluebikes Bikeshare membership.

- Provide lockers for employees that walk or bike to work.
- Have available an air pump and bicycle repair tools for employees and customers to use when needed.
- Designate an employee of the facility as a Transportation Coordinator (TC) to manage the implementation of TDM measures. The TC will:
 - Post in a central and visible location (i.e., lobby for customers, break room for employees) information on available non-automobile services in the area, including, but not limited to:
 - Available pedestrian and bicycle facilities near the Project site.
 - “Getting Around Cambridge” map
 - Locations of bicycle parking.
 - Bluebikes regional public bikeshare system.
 - Carpool-matching programs.
 - Provide a real-time transportation display screen in a central location to help people decide which mode to choose for each trip.
 - Provide and maintain information on the Project’s public website, newsletters, social media, etc. on how to access the site by all modes, with emphasis on sustainable modes.
 - Participate in any TC training offered by the City.
 - Provide a one-time contribution to the City toward transportation, transit and/or bicycle improvements to support non-automobile.

The above strategies will encourage non-auto travel by the employees.

CONCLUSIONS

GBSE has completed a Transportation Assessment of the potential impacts on the transportation infrastructure associated with the proposed cannabis dispensary (GreenSoul) to be located at 759 Massachusetts Avenue in Cambridge, MA. Based on this assessment, we have concluded the following with respect to the Project:

- The initial opening of the proposed facility will result in significant customers’ activity, which will be reduced over time as more dispensaries open.
- The need for a Traffic Management Plan for the initial opening period should be finalized prior to opening and in consultation with City staff.
- Parking in the area is constrained and will help to reduce auto travel to the site and encourage transit usage.
- Public transportation is available in the immediate Project vicinity to accommodate both employees and customers.
- The Project proponent has committed to an aggressive TDM plan to reduce automobile travel to the site and promote transit, bicycle and walking.

In consideration of the above, we have concluded that the Project can be accommodated within the confines of the existing transportation infrastructure in a safe and efficient manner.

Table 3
TRIP GENERATION SUMMARY
759 MASS AVECANNABIS
DISPENSARY

Time Period/Direction	Person Trips							Automobile Trips ^b	Employees Trips	Total Trips
	Proposed Cannabis Dispensary (10 Registers) ^a	Drive Alone Trips (41%)	Ridesharing Trips (13%)	Transit Trips (16%)	Pedestrian Trips (19%)	Bicycle Trips (6%)	Other Trips (5%)

Cannabis Retail Stores
Summary Form

Cannabis Retail Stores Summary Form

Project Site:	
Store Address.	759 Massachusetts Avenue, Cambridge, MA 02139
Total floor area of store (including sales, back of house, other).	2,342 sf
Retail sales area (including customer waiting areas).	762 sf
Maximum customer capacity – sales area.	22 People
Maximum customer capacity – waiting area.	11 People
Employees:	
Number of full-time employees (total).	6 Employees
Number of part-time employees (total).	18 Employees
Maximum number of employees on-site at one time.	24 Employees
Employee mode shares:	
% single-occupancy vehicle (SOV) (including ride-hailing):	5
% high-occupancy vehicle (HOV):	
% public transit:	75
% walk:	10
% bike:	10
% other:	
Customers:	
Number of customers per day.	440-840 customers
Maximum number of customers expected at any one time.	22 customers
Customer mode shares:	
% single-occupancy vehicle (SOV) (including ride-hailing):	25
% high-occupancy vehicle (HOV):	25
% public transit:	25
% walk:	15
% bike:	10
% other:	

Transit Availability:

List the public transportation services within ¼ mile of the site, including type (subway, bus, bike share), walking distance, and frequency.

The proposed facility is serviced by public transportation, on-street metered parking, multiple parking lots, Zipcar locations, and Bluebike stations within walking distance.

Parking Lots:

- Cambridge Municipal Lot 9 (2-minute walk),
- Central Square Parking Lot (3-minute walk),
- Cambridge Municipal Lot 6 (4-minute walk)
- Green Street Parking Lot (4-minute walk)
- Green Street Garage (7-minute walk)

Zipcar locations:

- Western Avenue: 3-minute walk
- 872 Massachusetts Avenue: 4-minute walk
- 55 Bishop Allen Drive: 7-minute walk
- 55 Franklin Street: 10-minute walk
- NW86 Pacific Street: 14-minute walk

Bluebike locations:

- Lafayette Square Bluebike station: 7-minute walk
- Harvard University housing Bluebike station: 13-minute walk

In addition, this site is approximately 400 feet, a 2-minute walk from the Central Square MBTA Red Line station, and there are 7 MBTA bus lines that connect in Central Square.

List the duration and frequency of public transit services for weekdays and weekends.

Central Square MBTA Red Line:

Peak Service

Weekdays 7 AM - 9 AM, 4 PM - 6:30 PM

Trains arrive every 9 minutes

Off Peak / Weekends

Trains arrive every 12-16 minutes

MBTA Bus Line:

Each bus route has its own schedule, with most routes running between 5 AM and 1 AM. Some routes also run between 1 AM and 5 AM.

Schedules are adjusted every 3 months to account for service demands.

Auto Parking Availability:

List public parking facilities within 500 feet of site (with addresses/locations, distance, and number of spaces) and parking occupancy for minimum one weekday (e.g., minimum 10 am, 12 pm, 3 pm, 5 pm, 7 pm), and minimum one Saturday (e.g., minimum noon, 3 pm and 7 pm).

Parking Lots:

- Cambridge Municipal Lot 9 (2-minute walk),
- Central Square Parking Lot (3-minute walk),
- Cambridge Municipal Lot 6 (4-minute walk)
- Green Street Parking Lot (4-minute walk)
- Green Street Garage (7-minute walk)

Estimated peak parking demand needed for employees.	2
Estimated peak parking demand for customers.	25
Number of employee parking spaces on-site.	None.
Number of customer parking spaces on-site.	None.
Number of employee parking spaces off-site (describe location and distance from site).	<p>Employees can park in the parking lots that are close to our retail store. We will be incentivizing employees to use public transportation.</p> <p>Parking Lots:</p> <ul style="list-style-type: none"> • Cambridge Municipal Lot 9 (2-minute walk), • Central Square Parking Lot (3-minute walk), • Cambridge Municipal Lot 6 (4-minute walk) • Green Street Parking Lot (4-minute walk) • Green Street Garage (7-minute walk)
Number of customer parking spaces off-site (describe location and distance from site).	<p>Customers can utilize street parking (when applicable) or park in the parking lots that are close to our retail store. We will be incentivizing customers to use public transportation.</p> <p>Parking Lots:</p> <ul style="list-style-type: none"> • Cambridge Municipal Lot 9 (2-minute walk), • Central Square Parking Lot (3-minute walk), • Cambridge Municipal Lot 6 (4-minute walk) • Green Street Parking Lot (4-minute walk) • Green Street Garage (7-minute walk)
Bicycle Parking Availability:	
Number of Employee long-term bicycle parking spaces on the Project site.	2 bicycle parking spaces are located inside the building.
Number of Customer short-term bicycle parking spaces on the Project site.	0
Number of public bicycle parking spaces within 100 feet of the main entrance of the site.	25

Loading and Delivery:							
Address of proposed Loading and Delivery Service Location (note whether it is on-street or off-street).	Loading will take place on Inman Street, directly behind the building. It is located off street.						
List the types of loading and delivery trips that will service the site (e.g., product delivery, cash pick-up, refuse collection) and expected number of trips per week for each type.	Delivery will consist of pre-packaged product, and dry goods. Deliveries will take place before business hours and will be handled in a secure manner. Refuse will be handled by the landlord on the normal pickup schedule – we will not be impacting the already scheduled refuse pickup.						
Project Trip Generation:							
Daily, Morning and Evening Peak Hour Employees and Customer trip generation by mode.		Employees			Customers		
		Daily	Morning	Evening	Daily	Morning	Evening
	SOV	1	1	1	20	20	20
	HOV	2	2	2	40	40	40

Dear Saba Kahassai,

Your application for Economic Empowerment priority certification has been approved. Your certification number is: EEA202243.

Sincerely,

The Cannabiss Control Commission

Section 10

Cannabis Control
Commission Application

The MassCIP system will be down for maintenance between 8:30 AM and 9:00 AM on Tuesday January 21st 2020.

Cannabis Control Commission > [My Licenses](#) > [Marijuana Retailer](#) > Marijuana Retailer - Application of Intent

Application #: MRN281592

Please review your Marijuana Retailer - Application of Intent packet below. If all information is accurate, click the "Submit" button at the bottom of the page. Three things will happen when you submit this packet:

- You will go to a confirmation page on this site – please print this page or save a screenshot for your records;
- You will receive a confirmation email with your application number confirming the submission of this packet; and
- Your application packet will enter the review queue if you have paid the application fee.

After you submit your application packet, you may login and view it on this website, but you cannot make edits unless the Commission gives permission for changes. That may happen if the reviewer has questions or needs more information.

A timestamp will be issued when your full application which is comprised of four packets has been received an approved. Upon approval, a fifth "License Fee Payment" packet will be available on your main page.

The review process may take several weeks or longer. You will be notified via email when the Commission has made a decision regarding your application.

Cannabis Control Commission > My Licenses > Marijuana Retailer > Marijuana Retailer - Management and Operations Profile

Application #: MRN281592

Please review your Marijuana Retailer - Management and Operations Profile packet below. If all information is accurate, click the "Submit" button at the bottom of the page. Three things will happen when you submit this packet:

- You will go to a confirmation page on this site – please print this page or save a screenshot for your records;
- You will receive a confirmation email with your application number confirming the submission of this packet; and
- Your application packet will enter the review queue if you have paid the application fee.

After you submit your application packet, you may login and view it on this website, but you cannot make edits unless the Commission gives permission for changes. That may happen if the reviewer has questions or needs more information.

A timestamp will be issued when your full application which is comprised of four packets has been received an approved. Upon approval, a fifth "License Fee Payment" packet will be available on your main page.

The review process may take several weeks or longer. You will be notified via email when the Commission has made a decision regarding your application.

Operating Information

1. Describe how the applicant will comply with employee pay standards set out in the City's Living Wage Ordinance. *

All employees will make \$16.15 minimally with annual raises and performance reviews. We will recalibrate to ensure that as City of Cambridge living wages change that we either meet or surpass that hourly wage.

2. Describe how the applicant will hire at least 51% minority, women and/or veterans as employees. *

Our job application will have questions that include the demographics mentioned. We will recruit and hire whenever possible qualified applicants that meet minimally the 51% guidelines. Quarterly we will review our employment records to make necessary adjustments to our hiring practices. We will work with GreenSoul Foundation to identify and train applicants in Cambridge and the Greater Boston area who meet or exceed the 51% threshold.

3. Describe how the applicant, if they have a Board of Directors, will have a board makeup that will be at least 51% minority, women and/or veterans. *

N/A

4. Describe how the applicant will work with the Cambridge Public Health Department to create and distribute educational materials to its customers as directed by the Cambridge Public Health Department. *

GreenSoul Organics will constantly evaluate how to best educate the community about responsible use, dangers of underage use and the benefits of marijuana in partnership with CPHD. GreenSoul Organics will also work to educate the community about the dangers of underage use by providing informational pamphlets at the point of sale that will be available to all customers. We will also hold classes through GreenSoul Foundation to educate community members.

5. Describe how the applicant will comply with directives of the Police Commissioner and of the Director of Traffic Parking and Transportation, or their designees, regarding traffic measures to be taken at and near the Cannabis Business site. *

Our website will recommend customers use public transportation, Blue Bikes, taxis or ride share services to access our location to minimize impact on traffic. Each receipt will include a reminder of private consumption requirements. Our POS software will assign purchases to individuals as well. We will also have a pre-order system that will minimize time at our location. We will also set up delivery to

minimize traffic. Our floor plan also includes internal cuing to minimize external lines. We will offer discounts and incentives for T Pass holders and online orders. There will be multiple check out options to minimize time at our location. We will have a pager system that will allow us to text customers when their orders are ready that will allow customers to patronize other business locations during their wait time.

Last Prisoner Project

Sarah Gersten
Executive Director and General Counsel
Last Prisoner Project

March 31, 2020

Re: Letter in Support of Green Soul Organics

To whom it may concern:

I am writing in support of Green Soul Organics application for an adult-use dispensary. I serve as the organization's Executive Director and General Counsel. The Last Prisoner Project (LPP) uses a multifaceted approach to address the disparities in sentencing for cannabis offenses and the collateral consequences of those arrests and convictions. LPP work's to redress these disparities through policy work, legislative advocacy, and impactful direct service programs that work to both release nonviolent cannabis offenders from incarceration and to assist those coming out of incarceration in rebuilding their lives through reentry programs and anti-recidivism efforts.

We started deploying our programming in California and have begun scaling our programs into other marijuana adult-use states such as Michigan, Colorado, and Illinois as well as medical-use states such as Maryland and Ohio. We are very excited about the opportunity of bringing these programs to the first fully recreational market on the east coast with the help of Green Soul Organics. As economic empowerment applicants, the founders and team at Green Soul are attuned to the needs of their community, and particularly those community members who have been most impacted by the war on drugs and prohibition. They have recognized the need in your community for some of the programming LPP provides, including expungement and record sealing clinics, as well as reentry programs.

The negative effects of a criminal record on an individual's life are well documented. Even minor offenses, such as a nonviolent drug possession charge, carry lifelong consequences that can impact an individual's access to [employment](#), [housing](#), [voting](#), [financial stability](#), [social assistance programs](#), and other opportunities, despite the debt that has already been paid to society. The consequences of a criminal record also come at a great cost to our economy. The estimated cost

of employment losses among people with criminal records is [as much as \\$65 billion per year](#) in terms of gross domestic product.

Fortunately, along with a growing trend toward legalization there is also a [growing trend](#) toward easing the process for people to seal or expunge past marijuana convictions. Unfortunately, while these laws do simplify the process, only a [fraction](#) of eligible individuals are using them. And this is not limited to marijuana offenses. Legal analysts [state](#) that many Americans do not take advantage of the increasing number of expungement and record sealing laws.

Part of this problem is lack of access to information. Many individuals may simply not realize they are eligible for expungement or sealing. The preliminary step of determining eligibility involves understanding a complicated state statute--a daunting task for those without formal legal training. Even more so, the process for applying for relief and properly submitting your request is difficult to navigate without expert assistance. Even in states like Massachusetts where the process is arguably the least complex, many eligible individuals are not sealing or expunging their marijuana convictions. This is because publicly available information about the expungement process can be difficult to decipher for those without a legal background or for whom English is a second language.

Since Massachusetts has not taken steps to automate the process of record clearing, there is an increased need for access to legal services to assist with record clearing in the state, particularly for cannabis offenders. In partnership with Green Soul, LPP can provide much needed access to expungement and record sealing services in the community. Last Prisoner Project will engage in a collaboration with Green Soul Organics to provide reentry programs and rehabilitation services once the facility is open. We understand Green Soul Organics intends to operate a Massachusetts Licensed Recreational Marijuana retail store and LPP welcomes our partnership in offering jobs, training, and services with Green Soul Organics.

Along with legal services, LPP has also developed vocational trainings that create pathways to employment for justice-involved individuals. These include in-depth courses which provide education specific to obtaining employment in the cannabis industry, as well as workshops to enhance employability skills generally, including trainings in things like Microsoft Office Suite, resume review, and mock interviews. If and when licensed, Green Soul Organics has committed to providing resources and assisting in developing these types of workforce development and reentry programs here in Somerville.

There is a fundamental injustice in allowing some to profit off of legal marijuana while others continue to suffer from the devastating consequences of prohibition. By awarding Green Soul Organics with a license, the city of Somerville can ensure that profits from the legal industry are being used to repair the past and continuing harms of the War on Drugs.

Thank you for your consideration,
