SUPPORTING STATEMENT FOR A SPECIAL PERMIT

Please describe in complete detail how you meet each of the following criteria referring to the property and proposed changes or uses which are requested in your application. Attach sheets with additional information for special permits which have additional criteria, e.g.; fast food permits, comprehensive permits, etc., which must be met.

Granting the Special Permit requested for 2 Parkway Ter , Cambridge, MA (location) would not be a detriment to the public interest because:

A) Requirements of the Ordinance can or will be met for the following reasons:

Section 8.22.2(c) allows for the construction of the proposed addition upon the issuance of a Special Permit provided, as is the case with this application, the structure is not increased by more than 25% in area or volume since it became nonconforming.

B) Traffic generated or patterns of access or egress would not cause congestion hazard, or substantial change in established neighborhood character for the following reasons:

The proposed additions will not alter traffic patterns.

C) The continued operation of or the development of adjacent uses as permitted in the Zoning Ordinance would not be adversely affected by the nature of the proposed use for the following reasons:

The adjacent uses are all similarly sized single and two family dwellings.

D) Nuisance or hazard would not be created to the detriment of the health, safety, and/or welfare of the occupant of the proposed use or the citizens of the City for the following reasons:

The proposed additions will be constructed in accordance with all the requirements of the State Building Code.

E) For other reasons, the proposed use would not impair the integrity of the district or adjoining district or otherwise derogate from the intent or purpose of this ordinance for the following reasons:

The intensity and use of this single family dwelling will not be materially altered as a result of the proposed addition. As a result, there will not be any detrimental effect upon the neighborhood.

***If you have any questions as to whether you can establish all of the applicable legal requirements, you should consult with an attorney.**
