

Questions on PERF After-action Report • April 2024

Highly commend the CPD for having already completed many of the PERF recommendations.

Below are questions that reference both PERF Recommendations and the Status Updates provided to the Public Safety Committee.

Status Update #	Questions
Co-response	When will the co-responder model be in place? How will CPD evaluate its impact?
36 Tactical debrief	Did a tactical debrief take place after the Jan. 4th fatal shooting as outlined in the draft OIS policy?
37 Critical Incident Review Board	What is the process and timeline for how these recommendations related to establishing a Critical Incident Review Board are being considered?
Monday Morning Quarterbacking	<p>Did the proposed process involving having supervisors review the below questions take place? What was learned from the process?</p> <ul style="list-style-type: none"> <li>- Was the subject sufficiently contained without placing an officer between the subject and a high fence?</li> <li>- Was the need for tactical repositioning needed, considered, and possible?</li> <li>- Was a position with cover possible?</li> <li>- Was there too much compression of space?</li> <li>- Was a layered-less-lethal response possible or even discussed?</li> <li>- Other than the 40-mm, what tools did officers have and were they reasonable under the circumstances (e.g., was oleoresin capsicum (OC) spray accessible, and even it was, would it have been appropriate in the circumstance)?</li> <li>- What was the back-up plan?</li> <li>- Was a supervisor on-scene and sufficiently engaged with the answers to the questions above?</li> <li>- What happened after an officer(s) pointed a weapon(s) at the subject? Did he change?</li> <li>- How can we learn from the answers to all these questions?</li> </ul>
7-10	Many of PERF's policy recommendations include using clearer descriptions that are more aligned to best practice. What, if anything, prevents CPD from using policy language recommended by PERF even if it is different from CMR language?

11-12	What is the process and timeline for how these recommendations related to supervisor responsibilities related to UOF are being considered? Who are the stakeholders involved and when might a decision be made?
17	Has the department considered whether the language “Less Lethal, Less Lethal” may not give clear enough information about what is about to happen that would “give the subject a reasonable opportunity to comply”?
35	Where did Officer McMahon receive training on the 21 foot rule?
Equipment	<p>Do all CPD officers in patrol cars now have 40 mm launchers?</p> <p>What is the CPD response to the recommendation to equip all patrol cars with MK-9 OC spray?</p> <p>What is the CPD response to replace the OC spray on duty belts with the gel form instead of the aerosol form?</p>
